

## Williams Apparent Winner But May Not Know Until December

LANSING (AP) — Governor Williams, hearkening to reports of an impending recount, today ordered state police to check the location and condition of all ballot boxes used in Tuesday's general election.

He did this without the consent of the State Board of Canvassers.

Williams said he was sure a great majority of city and township clerks will obey the law which requires ballots to be kept under lock and key in their custody.

"At the same time," he said, "the public is entitled to assurance that every precaution is being taken in the event of another recount. The Republican candidate for governor, who has indicated he might seek a recount, also has right to assurance that the ballots will be kept safely."

### Load Cut Slightly

The Democratic governor made the move as a trifle of official canvass figures came in from the counties, maintaining his lead in the gubernatorial vote.

With 44 of the state's 83 counties canvassed officially, Williams had a margin of 7,134 over Republican Fred M. Alger Jr. This was a slice of nearly 500 votes from the margin with which he started the day. One of the big changes was discovery of a tabulating error in Calhoun County's Homer township, shorting Alger by 360 votes. The unofficial totals now read:

Alger, R., 1,422,758.

Williams, D., 1,429,892.

Several minor changes were made in the official canvasses. The biggest today, in St. Joseph County, cut Williams' lead by 138.

In ordering state police to check the ballot boxes throughout the state, Williams sought the company of the Board of Canvassers. Lawrence L. Farrell, the governor's executive secretary, asked the all-Republican board to join the order, but the board declined.

## Parachute Leap Made Too Late

OCEANA, Va. (AP) — A too-late parachute jump from his flaming jet fighter claimed the life yesterday of the former commander of the first jet squadron to tackle the enemy in Korea.

Comdr. Albert D. Pollock Jr., 37, stationed at Patuxent, Md., was killed when he parachuted from his wing-swept F9F6 "Cougar" jet.

A test pilot for evaluation projects at the naval air test center at Patuxent, Pollock had just left the 45,000-ton aircraft carrier Coral Sea when he radioed that one of his two engines had blown some turbine blades and he would land here.

Pollock, formerly of Twin Falls, Idaho, and Orcutt, Calif., was over the field when flames licked out of his plane. The fighter went out of control and crashed with Pollock leaving the craft too late for his chute to open.

## Alger Hiss Applies For Prison Parole; May Leave Nov. 21

WASHINGTON (AP) — The Justice Department says Alger Hiss has formally applied for parole from the Lewisburg, Pa., Federal Penitentiary.

Hiss, a former State Department employee, was convicted of perjury in 1950 in denying he gave secret documents to a Communist courier and began serving a five-year term in March 1951. He becomes eligible for parole Nov. 21, when he will have completed one-third of his time in prison.

The five-man parole board will hold a hearing next week, possibly Wednesday. If Hiss' application is approved, he could leave prison Nov. 21.

## Four Children Saved

GRAND HAVEN (AP) — Mrs. Robert Heyn saved her four children but suffered severe burns of the face, arms and back as fire destroyed their home at Stearns Bayou south of here Thursday.

The children were taking their afternoon nap when Mrs. Heyn discovered a blaze in the utility room. She led the children, Jeanne, 7, Robert, 4, Rudolph, 2, and Amelia, 8 months, to safety.

## Fish Speakers Drown

TRAVERSE CITY (AP) — The body of Richard Wier, 30, of Beulah, was recovered Thursday from Crystal Lake, 25 miles southwest of here. Wier was one of three men who drowned shortly after midnight Nov. 1 when they went out on the lake to spear whitefish. The other bodies were recovered Wednesday.

State Treasurer D. Hale Brake said, "it is the position of the Board of Canvassers that what the governor does with the state police is his business but so far as the board is concerned we have already warned local officials that the election is close, have cited the statutes to them and suggested that they very carefully follow the provisions of the statutes."

"We shall not assume," Brake continued, "that local officials will fail to do their duty in connection with the care and custody of the ballot boxes, and unless and until a recount is demanded by an interested party, no further action will be taken in that connection by the board of canvassers."

Farrell said the governor believes that Edward Frey, state director of elections, and a subordinate of Secretary of State Alger, had authority to supervise local election systems, but that Frey insisted the decision be made by the board.

Farrell told newsmen had had reports that in Grand Rapids the ballot boxes overflowed and sur-

plus ballots were piled in paper shoe boxes.

### Stored In Sheds

"We know from our experience in the recount two years ago," Farrell said, "that ballot boxes were stored in work sheds, privies, attics and many other places where they should not have been."

Williams ordered State Police Commissioner Joseph M. Childs to assign all available state troopers to investigate the location of ballot boxes and make security arrangements for them. He was directed to report any irregularities or laxity by local election officials.

The police commissioner was instructed to count the number of ballot boxes, check the boxes and seals and record seal numbers.

Republicans have indicated they will seek a recount if the official canvass of all counties gives Williams less than a 10,000 vote margin. But the final canvassed figures might not be known until December 13 or after because the board has until then, 40 days after the election, to make a final re-

## Allied Artillerymen Win Bloody Battle Of Hills In Korea

By WILLIAM C. BARNARD

SEOUL (AP) — The U. S. Eighth Army Quartermaster today said "No American army, anywhere, ever began a winter better equipped or clothed than the Eighth Army is now."

Col. J. D. Bell, Lacanada, Calif., made the statement in an interview as the season's first snow swirled across the rugged, desolate Korean battle front.

"Supplies of everything are ample, and distribution is good," he said. "Parks are being issued to the troops now, with frontline outfits getting them first."

Bell said conditions were in sharp contrast to the early winter of 1950-51 when Allied soldiers suffered because of late supplies of cold-weather equipment.

After all parkas are distributed, the next item of issue will be the new insulated winter boots, for use in really bitter weather. The boots are the most modern method of preventing frostbite, which plagued the Eighth Army during the first winter of fighting. The boot is built on the same principle as a thermos bottle—with a dead air space between the foot and the outside weather.

The last item to be distributed, Bell said, will be the white camouflage garb which already is in Korea and Allied divisions can requisition it when they please, by order of Recorder's Judge Joseph A. Gillis.

Gillies stoves are issued for bunkers.

## Democrat Sets Fire As Landlady Smirks In San Antonio, Tex.

SAN ANTONIO, Tex. (AP) — A 45-year-old San Antonio Democrat represented the winning smirks this Republican landlady yesterday and was jailed after he had tried to burn her house.

He barricaded firemen from his small garage apartment in the rear of the landlady's house and fought with them as they broke down the door. He was booked in city jail on a charge of arson.

"I just didn't like her attitude," he told Patrolman C. G. Ramirez as they rode to the city jail.

Meters Taken Up

CHEBOYGAN (AP) — One of winter's pleasantries will happen here Monday. City council has ordered all parking meters taken up for the winter months.

Turkey Brings \$477

GRAND RAPIDS (AP) — The most expensive turkey in Michigan's history was on ice here today, to be roasted Thanksgiving Day for the children of St. John's Orphanage. It cost \$477.50.

The present machine cost \$33,000 in 1936, Philleo said, "but our inventory indicates a new one would cost about \$70,000."

Philleo said it might be possible to retain the present voting machine and call the additional 10 votes by voice, but he declared that would be cumbersome and confusing.

The new reapportionment probably will not become effective for two years.

## Write-In Candidate Right On Eisenhower, Wrong On Himself

BALTIMORE (AP) — Stephen B. Peddicord, self-styled write-in candidate for the U. S. Senate in Maryland, made two predictions weeks before election.

He said GOP presidential candidate Dwight D. Eisenhower would carry 40 states, only one more than he actually did.

2. The Baltimore electrician also predicted that he, himself would sweep the Senate race in Maryland, winning by 100,000 votes.

The complete but unofficial returns failed to turn up a single ballot for Peddicord as of today.

## Dropping Of Foliage Welcomed By Hunters

LANSING (AP) — Northern lower peninsula conservation officers reported today that hunters had been making good kills of grouse and squirrels in the past week.

Rain and snow and the dropping of the last of the foliage helped hunters.

Many duck hunters were reported taking their limits as migrations reached their peaks. Blacks and blues were particularly abundant. Most duck hunting was being done along Lake Michigan.

TRIANGLE CITY (AP) — The body of Richard Wier, 30, of Beulah, was recovered Thursday from Crystal Lake, 25 miles southwest of here. Wier was one of three men who drowned shortly after midnight Nov. 1 when they went out on the lake to spear whitefish. The other bodies were recovered Wednesday.

## Eisenhower Drafts Plans For Meeting With Truman

### Army In Korea Well Clad For Bitter Winter

By WILLIAM C. BARNARD

SEOUL (AP) — The U. S. Eighth Army Quartermaster today said "No American army, anywhere, ever began a winter better equipped or clothed than the Eighth Army is now."

Col. J. D. Bell, Lacanada, Calif., made the statement in an interview as the season's first snow swirled across the rugged, desolate Korean battle front.

"Supplies of everything are ample, and distribution is good," he said. "Parks are being issued to the troops now, with frontline outfits getting them first."

Bell said conditions were in sharp contrast to the early winter of 1950-51 when Allied soldiers suffered because of late supplies of cold-weather equipment.

After all parkas are distributed, the next item of issue will be the new insulated winter boots, for use in really bitter weather. The boots are the most modern method of preventing frostbite, which plagued the Eighth Army during the first winter of fighting. The boot is built on the same principle as a thermos bottle—with a dead air space between the foot and the outside weather.

The last item to be distributed, Bell said, will be the white camouflage garb which already is in Korea and Allied divisions can requisition it when they please, by order of Recorder's Judge Joseph A. Gillis.

Gillies stoves are issued for bunkers.

## Democrat Sets Fire As Landlady Smirks In San Antonio, Tex.

SAN ANTONIO, Tex. (AP) — A 45-year-old San Antonio Democrat represented the winning smirks this Republican landlady yesterday and was jailed after he had tried to burn her house.

Randolph said the big guns can't do the job alone. Some Chinese field pieces are protected by log and earth paupers up to 23 feet thick. Others are hidden in tunnels and caves.

The artillery hopes to get most of them. Air Force attacks with searing napalm and big bombs may take care of the rest.

## Turkey Brings \$477

GRAND RAPIDS (AP) — The most expensive turkey in Michigan's history was on ice here today, to be roasted Thanksgiving Day for the children of St. John's Orphanage. It cost \$477.50.

The present machine cost \$33,000 in 1936, Philleo said, "but our inventory indicates a new one would cost about \$70,000."

Philleo said it might be possible to retain the present voting machine and call the additional 10 votes by voice, but he declared that would be cumbersome and confusing.

The new reapportionment probably will not become effective for two years.

## Write-In Candidate Right On Eisenhower, Wrong On Himself

BALTIMORE (AP) — Stephen B. Peddicord, self-styled write-in candidate for the U. S. Senate in Maryland, made two predictions weeks before election.

He said GOP presidential candidate Dwight D. Eisenhower would carry 40 states, only one more than he actually did.

2. The Baltimore electrician also predicted that he, himself would sweep the Senate race in Maryland, winning by 100,000 votes.

The complete but unofficial returns failed to turn up a single ballot for Peddicord as of today.

## Vigilance Complicated

Army headquarters said no direct word on the Eisenhower visit had been received from Washington. But a decision is expected within two weeks or less.

Air Force jet fighters undoubtedly will protect the future president while he flies over Korea. A public flight from Japan to Korea would require much more vigilance.

But it might be embarrassing for the future head of a state to pass through Japan without paying a state call on the emperor.

**Soldiers Hopeful**

AP Correspondent Robert B.

(Please Turn To Page 6, Col. 7)

## Ike May Skip Japan On Flight To Korea

By OLEN CLEMENTS

TOKYO (AP) — Diplomatic and Army sources speculated today that President-elect Dwight D. Eisenhower might skip Japan on his forthcoming visit to Korea and fly direct from Okinawa or Wake Island to Seoul.

They suggested two reasons why the future president might bypass Japan:

1. Protocol would require that he call on Emperor Hirohito.

2. Security measures would be simplified if he did not stop in Japan.

The question of jet fighter cover to protect his plane on the trip from Japan to Korea also is a factor.

## Dropping Of Foliage Welcomed By Hunters

LANSING (AP) — Northern lower peninsula conservation officers reported today that hunters had been making good kills of grouse and squirrels in the past week.

Rain and snow and the dropping of the last of the foliage helped hunters.

Many duck hunters were reported taking their limits as migrations reached their peaks. Blacks and blues were particularly abundant. Most duck hunting was being done along Lake Michigan.

## Jury Deciding Coyne Verdict

The 7-man, 5-woman Circuit Court jury went into its chambers at 11:15 this morning to reach a verdict which will convict or free John C. Coyne Jr. of leaving the scene of a fatal accident.

Their verdict will follow two days of testimony in which 12 state and 11 defense witnesses took the stand to support the People's charge that Coyne knowingly drove his car over the body of Tom Cannon of Gladstone, or in behalf of the defendant who pleads that he had no knowledge that he struck and probably caused the death of the 17 year old youth.

### Two Possible Verdicts

Presiding Judge Glenn W. Jackson of Gladstone instructed the jury that only two verdicts were possible in the case—guilty as charged or not guilty.

He told them that to render a verdict of guilty they must find that Coyne knew definitely that the car he was driving was involved in an accident and that he failed to stop to render assistance.

"You must find beyond a reasonable doubt that the defendant knew he struck a human being; if you find him guilty, he charged them."

If on the other hand, Judge Jackson said, the jury finds that Coyne did not observe a person on the highway or was not aware of having struck a human being, they must find him not guilty.

The court's instructions to the jury followed the closing arguments of the counsels, both of whom emphasized that knowledge by the defendant that he struck a person was the important factor of the case.

In examination yesterday Coyne testified that he saw near the scene of the accident an object which looked like "a cardboard box" lying on the road and that he first learned a few minutes later that someone had been killed on that spot.

### Findings of Experiment

Among five defense witnesses called to testify Thursday afternoon was Dr. LeMoine Snyder, a medical-legal consultant of East Lansing.

In direct examination by defense counsel Michael O'Hara of Menominee, Dr. Snyder told the jury of the physical impossibility of Cannon's having been in an upright position at the time he was struck by an automobile the early morning of July 27 on US-2, 41 near Masonville. The dent in the lower left portion of the front bumper of the Coyne car points negatively to the possibility that Cannon was standing up when he was hit, Dr. Snyder testified.

He related an experiment he conducted Wednesday night at the Coyne garage and at the scene of an accident which led to his opinion that the youth was in a recumbent position at the time of the fatal impact.

The dent on the bumper of the Coyne car was measured to be 15 inches from the floor he said. It was the only damage caused to the outer surface of the car. If Cannon had been standing on the road, he said, the impact would have thrown him over the hood of the car and damaged to the upper portion of the vehicle would have resulted.

### "Amazingly Flat"

Explaining the experiment conducted at the scene of the accident, Dr. Snyder narrated that a boy's jacket was placed on the highway to determine its visibility to an oncoming driver. The witness testified that he approached the jacket in a car traveling 60 mph (the speed Coyne was reportedly going) and that at this speed he was unable to detect the piece of clothing in time to avoid striking it.

"I had not appreciated before," he said, "how amazingly flat objects on the road look in that situation."

The experiment showed him, he testified, that it is unlikely that a driver seeing an object on the road while traveling that speed can react in time to recognize it and avoid it.

(Dr. Snyder is a widely recognized authority on matters of legal medicine.)

Other defense witnesses testifying yesterday included Mrs. John C. Coyne Jr.; Thomas Coyne, the defendant's brother; and Clarence Erickson and William Shepeck of Escanaba.

Four defense exhibits were introduced and accepted during Dr. Snyder's testimony—the jacket used in the highway experiment, a stop watch, a chart of time-distance relationships, and a sandbag, also used in the Dr. Snyder's tests.

The jurors who began to deliberate the case this morning are: Glenn Sandell, Clara Jader, Andrew Sundberg, Peter Jacobson, Eino Salmi, Mrs. Joseph Casimir Peter Semer, Priscilla Dufour, Louise Gregoire, Royce H. Gustafson, Bertha Neumann, and Stephen J. Rabideau.

### Gulliver

**GULLIVER**—The Rev. Edward Podhola of the Church of Jesus Christ, Detroit, will conduct services at the Tillie Nielsen home beginning Sunday, Nov. 9, at 7:30 a.m. The public is invited.

## 74 Per Cent Of Chest Total Raised To Date

With several committees still to be heard from, the Delta County Community Chest total this morning stood at \$14,681.06, or 74 per cent of the county quota of \$20,000 in the 1952 campaign, Dr. A. A. Gossan, county chairman, reported.

Amounts collected to date in the three divisions and their respective quotas follow:

Escanaba	\$11,187.25	\$12,500
Gladstone	2,711.86	4,500
Townships	781.95	3,000

Totals \$14,681.06 \$20,000  
The collection in Escanaba represents 90 per cent of the quota. Gladstone's contribution to date represents 60 per cent of its goal, and the townships are trailing with only 26 per cent.

### Hurry! Hurry!

With these figures facing him, the county chairman this morning issued an urgent request to all committee chairmen and their workers to complete the work as soon as possible.

"I sincerely hope that all persons participating in this campaign and all persons who have not yet made a contribution will do their utmost to help us finish the drive and to reach the quota of \$20,000," he said.

"The response has been fine from some committees. In other instances, it has been disappointing. But all can cooperate these last few days now that the hubbub of the presidential election is over to help Delta County reach its goal."

### More Collections

The Community Chest Council has indicated that Chest campaigns must be a success if they are to continue. Should they fail, a return to six separate drives would be a definite possibility.

Collections are being made at the Chicago and North Western shops, yard and at the ore docks, and it is expected work will be completed within the next few days.

No word has been heard yet from the Special Gift committee. The work of the industrial committee is almost complete, with only a few small industries not yet heard from. All major industries are in.

Ludington street work is nearly complete, but collections still must be made in the 1000 block and the area from the 1800 block to 23rd street. School contributions are in, and the Unions committee work is only partly complete.

### Clubs Among Missing

Many clubs in the city have not yet made a contribution but are expected to very soon. Those in date are Kiwanis, Masonic Blue Lodge, C. & N. W. Woman's Club, Phoebe Rebekah Lodge and the Eagles. "The professional men have made their contributions, and the public employees contributions also are in."

Meanwhile, the city Community Chest feather on the Escanaba Junior High School lawn got another coat of paint this morning—up to the plus-\$11,000 mark. The "mercury" has climbed so high now that the job required the use of one of the city fire truck ladders.

The question now is: "When will someone climb to the top to paint the \$12,500 mark?" to mark successful completion of the campaign.

## Copies Of City Audit Received

Fifteen copies of the audit of the books and records of the city of Escanaba, as prepared by Andrew W. Skaggs, CPA, of Escanaba, for the last fiscal year have been received by the Escanaba City Council.

City Manager A. V. Aronson told the council he had received requests from citizens who asked to be supplied with copies of the audit, and asked the Council to establish a policy on the distribution of the general audit reports.

The Council by motion advised the city manager that copies of the audit are not to be made available for general distribution to the public because of the limited number, but suggested that interested persons will be welcome to see and study the audit report on file at City Hall.

Today the city manager said that in response to a suggestion he would place a copy of the audit at Carnegie Public Library where persons would have it available to them through the evening hours after City Hall is closed.

The library copy cannot be taken out, however, and will be placed there as convenience to the public.

Information from the audit will be presented to the public in the city's annual report, authorized last night by the City Council. Four thousand copies will be prepared at a cost of \$900 for general distribution to residents of the city.

Councilman Jacob Bink, presiding last night as mayor pro-tem in the absence of Mayor Robert E. LeMire, voted against the preparation of 4,000 copies of the city's annual report. He said he believes the slight interest indicated in the reports in prior years does not warrant the \$900 expenditure.

The motion to print and dis-

## Council Favors Use Of Fluorine In Water Supply

Escanaba City Council last night assured Mrs. C. L. Reigel of Escanaba, chairman of the Delta County Lay Health Committee, that it favors the fluoridation of the city's water supply as a method of bringing better dental health to Escanaba children.

Mrs. Reigel appeared before the Council to urge favorable consideration of fluoridation and the benefits of the program in other communities in reducing tooth decay among children.

City Manager A. V. Aronson said that necessary connections in the piping at the city's new water filtration plant have been put in so that addition of fluorine to the water can be done with minimum expense. He said that it is his intention to recommend fluoridation to the Council after the water plant has had its tests in December and is in full operation in January.

Cost of the equipment to introduce fluorine in the water at the rate of one per million is estimated at \$2,500 to \$2,800 and the annual per capita cost of the fluorine is about 25 cents, he said.

Local residents are urged to join in the observance by wearing red clothing throughout the jamboree and hunting season. It was pointed out by committee members that it is not necessary to wear all red clothing but some red clothing should be worn by local residents.

## 'Wear Red' In Jamboree Here

Escanaba residents are urged to "wear red" beginning Monday, Nov. 10, and continuing through the deer hunting season in observance of Escanaba's "Red Jacket Jamboree."

The Chamber of Commerce Red Jacket Jamboree committee has arranged many events of interest to hunters.

Escanaba stores will hold "Red Jacket Jamboree" sales during the observance and on Nov. 13 a "Come as You Are" dance will be held at the Dells. A pancake feed and square dance is scheduled for Nov. 18 at the K of C club.

A street square dance will be held Nov. 20 on Third Avenue North at the C&NW depot from 10 p. m. to 11:30. On Nov. 21, a drawing for the buck pig will be held at Third Avenue North at the C&NW depot.

Local residents are urged to join in the observance by wearing red clothing throughout the jamboree and hunting season. It was pointed out by committee members that it is not necessary to wear all red clothing but some red clothing should be worn by local residents.

## City Accepts Highway Plan

Plans of the State Highway Department for the proposed widening of the intersection of M-35, US-2-41 routes (23rd and Ludington Street intersection) were approved last night by the Escanaba City Council.

The plans were presented to the Council by John A. Wils of the State Highway Department.

Cost of the improvement is estimated by the state to total \$120,000, with the city's share—some of the local cost to be paid through special assessment—estimated at \$27,600.

The Highway Department expects to take bids on the project this month and begin work next spring. During the winter months the city will make what changes and improvements are necessary in its utility lines in the construction zone.

### Tribute to Wickman

In other business the Council: Approved bid of \$102 by Loretta and Albert Huttie, the highest of four received, for purchase from the city of a small frame house at 406 First Avenue South. The building is to be dismantled and removed by Dec. 15.

Adopted a resolution memorializing the late Samuel Wickman, former Escanaba city councilman and mayor, for his interest in and service to good government.

Accepted the recommendation of the Planning Commission and gave first reading to an amendment to the zoning ordinance changing the area near Harnischfeger truck crane plant to industrial; and an area around North 23rd Street and 12th Avenue N. from Residence A to industrial and Residence B. Public hearing will be given at the next council meeting.

### Order More Propane

Accepted a report from the engineering department on plans and specifications and estimated costs to construct a sanitary sewer on Eighth Avenue S. from 19th to 23rd Streets. Objections to the proposed project will be heard at the next Council meeting.

Authorized a contract in which an additional one tank car of propane will be delivered to the city monthly for a one year period beginning Nov. 1. The propane will supplement the present contract supply for the city's new gas plant.

Tabled a request by Rudolph and Pearl Schreve for approval of an SDM liquor license until an investigation is made by the police department. The Schreves operate a store at Tenth Ave. S. and 13th St.

Delayed action on a request to approve an SDM license for John J. Riley, 301 Ludington, until the state liquor control commission makes the request.

## Mother And Daughter Champion Pie Bakers

PETOSKEY (W) — Mrs. Walter Kirkpatrick of Bellaire did a good job of it when she taught her 16-year-old daughter, Ellaine, how to bake an apple pie.

Ellaine won the grand championship award yesterday at the Northern Michigan Potato and Apple Show contest, sweeping both junior and senior divisions.

The winner in the senior division —Mrs. Kirkpatrick.

## HERE'S WHY YOUR HOUSE NEEDS Storm Sash!

 Just as surely as water flows downhill, heat flows from a warm area to a cold one. Thus, in winter, heat is flowing constantly through the walls and roof of your house to the cold outdoors.

You can reduce this heat waste by the use of proper insulation. The best way to cut down on the loss of heat through windows and doors is to install Storm Sash. In fact, you can slash fuel bills up to 30 per cent with double-glass insulation. Call us today for an estimate on Storm Sash made with Libby-Owens-Ford Window Glass.

Wally Mokszky, of Ford River, and Sgt. David King, Escanaba. This work will give Escanaba a 150x80 ice rink. (Escanaba Press Photo)

## County Clerk Told To Keep Ballots For Possible Recount

County Clerk Mary Constantineau received notice yesterday from the state board of canvassers to preserve custody of ballots cast in Delta county until after the state canvassers meet.

The step is being taken throughout Michigan in foresight of a possible recount of votes cast for governor.

Delayed action on a request to approve an SDM license for John J. Riley, 301 Ludington, until the state liquor control commission makes the request.

## THANK YOU

I wish to sincerely thank the voters of Delta County for their vote of confidence and splendid support given me in Tuesday's election.

Ann S. Villeneuve,

## Council Rejects Flasher Signals

Holding to its previous recommendation that manual operation be combined with automatic flasher signals at the Stephenson Avenue crossing of the Chicago and North Western Railroad, Escanaba City Council last night disapproved a flasher signal plan submitted by the railroad.

There is the possibility the C&NW Railroad will appeal the City Council's rejection to the Michigan Public Service Commission. In that event a public hearing would be scheduled on the railroad's proposal.

**Supporting the City Council** In its opposition to any plan that would eliminate the men who now guard the crossing and control traffic there is a recommendation of the City Safety Committee and a group of citizens who have appeared at hearings held by the Council in the past.

The C&NW Railroad's proposed protection for the crossing includes automatic flasher signals, a bell warning, and manual operation of the flashers when switching is underway on the tracks east of the crossing.

John Gannon of Escanaba appeared before the City Council last night to protest the railroad's proposal for crossing protection and asked the Council to table the matter for further study until next meeting. He suggested the city submit a counter-proposal to the Public Service Commission.

The Council declined to postpone its rejection of the railroad's

## LITTLE LIZ

A lot of people have no objection to gambling until they lose.

## Briefly Told

**Story Hour at 10**—Story Hour at the Carnegie Public Library Saturday will be at the usual hour, 10 a.m.

**Eagles Social**—The Eagles club and its auxiliary will hold a box social at the clubrooms beginning at 8 p.m., Sunday. Dancing will follow. The social is a benefit for Damon Runyon Cancer fund.

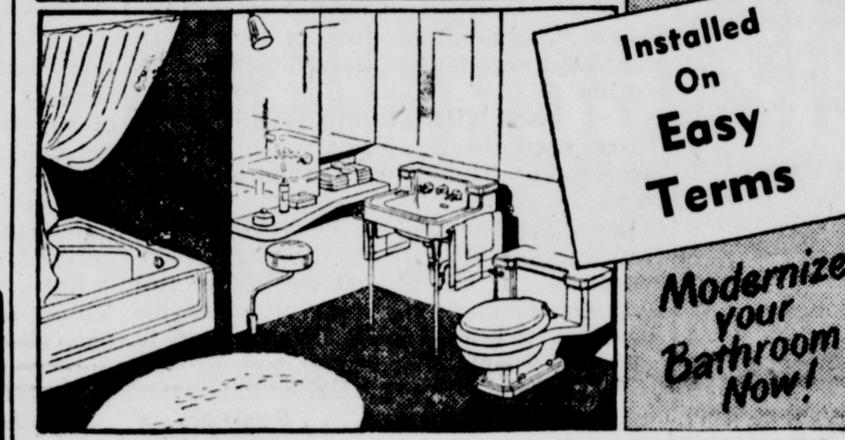

**Completes Course**—Miss Rauha Koski, student of Yale University graduate school of nursing, has completed a one-month field course with the Delta-Minoninee Health department, and will leave shortly to return to New Haven, Conn.

plan, and pointed out that if the city makes a proposal for guarding the crossing it may be called upon to share in the cost of installations. The Council and others who object to the railroad's proposal will have an opportunity to be heard before a decision is made by the Public Service Commission.

It was pointed out.

## Like your travel with a JOYOUS THRILL?

We have news for a lot of folks who want more fun from driving than they get from their present cars.

There's a trim bundle of eager high-powered energy that's just the ticket for you—a spirited automobile that can give you thrill after joyous thrill, for mile after fleeting mile. Why not come in and try the Buick we have in mind?

The excitement starts with your first look at it, your first sitting in it, your first fingering of its slender wheel.

But wait till Dynaflow Drive\* begins working its magic—and its constant and complete smoothness fills you with never-ending wonder.

Wait till you feel the bubbling exuberance

of taking your first hill with a high-compression Fireball 8 Engine doing the honors. That's when you get a man-sized sampling of the tremendously able and instantly responsive power you command here.

Wait till you feel the serene satisfaction of skimming over rough roads, cobbles or ridged crossings. That's when you know, better than words can tell, what a million dollars' worth of ride engineering can do in the way of magnificent comfort.

Wait till you jockey into a real tight parking space and note the fun and ease that Power Steering\*\* brings to a once-tough job.

But—why wait?

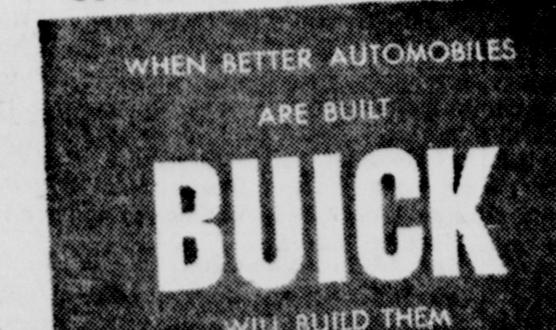

There's a Buick that can do all this—and more, far more—all ready for you to try it.

And listen: If you can afford a new car, you can afford a Buick.

How about coming in this week for a real sampling of this joyous travel?

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series. \*\*Optional at extra cost on Roadmaster and Super only.

Sure is true for '52

have been received here and will be distributed in November. Canned snap beans, tomato paste, canned peas, peanut butter, canned peaches and frozen turkeys are scheduled to arrive soon.

**State Average 25¢**

The hot lunch deficits will be cut if these commodities arrive as scheduled, without increasing cost to students. Last year school districts in the county had to raise prices to meet deficits.

Students in the county are charged from 15 to 35 cents per meal, Quarstrom states. The state average is 25 cents a meal.

Deficits incurred in September will be met either by PTA units, townships or school districts.

**One Didn't Operate**

The September deficits by school district were as follows:

Bark River—\$625.95; Brampton—\$32.07; Cornell—\$110.55; City of Escanaba—\$408.92; Escanaba—\$22.66; Ford River—\$22.22; Maple Ridge—\$63.06; Nahma—\$76.24; Rapid River—\$174.21; Wells—\$49.50.

Garden township did not operate a school lunch program during September because equipment in the new school building was not ready.

Fairbanks township, which started late, operated its program only 12 days during September.

## School Lunches Bring Deficits

Only one Delta County school district, Escanaba township, balanced its school hot lunch budget during September and 10 sustained deficits, figures from County Superintendent Hagel Quarstrom reveal.

The 10 districts who went in the red in September had deficits totaling \$1,585.38.

One reason for the deficits is the cutting of reimbursement this year from seven cents to five cents per child per day, Supt. Quarstrom explained. School districts are reimbursed by the state from federal funds.

**Turkeys to Come**

During September, school districts here did not receive commodities, but these now are beginning to arrive, Quarstrom reports.

In October, schools received surplus shelled eggs, cheese, dry beans and dry milk. These will continue coming for the next three months.

Schools in Delta County are scheduled to receive smoked bacon in November and December, and smoked hams in January.

Sour cherries and tomatoes

## Editorials—

### Voters Showed Understanding Of Issues On Amendment Proposals

THERE was a general and complete understanding by the voters of Northern Michigan and, for that matter, by the voters of Southern Michigan, too, of the importance of the proposed amendments to reapportion the Michigan Legislature.

Proposal No. 1, to amend the search and seizure constitutional provisions to provide for better enforcement of the narcotics laws, was carried by an overwhelming margin.

Proposal No. 2 which would have delivered control of the Legislature to the CIO bosses was badly swamped while Proposal No. 3, which provides for reapportionment on the basis of area as well as population, carried by a big margin.

The Upper Michigan newspapers united to lead the fight against Proposal No. 2. If it had carried, the peninsula would have suffered in the loss of membership both in the House and the Senate.

### Presidents Come And Go, Their Problems Linger

SOME idea of what is in store for the new American President can be gleaned from the announcement by British Foreign Secretary Eden that he plans to confer with the President soon after the secretary's arrival here to lead his country's UN delegation.

Eden is said to be deeply concerned over worsening relations among the members of the western alliance. He wants the U. S., Britain and France to give fundamental reconsideration to their attitudes toward each other.

One of the big problems is whether France and Britain can enlarge their military budgets to step up the size of the North Atlantic Treaty armies under General Ridgway. A new study by the Mutual Security Administration strongly suggests they cannot.

For another thing, France feels hard-pressed to maintain even current commitments in Europe while pursuing at the same time an intensified war against Communist rebels in Indo-China. And there has been frequent talk that the British, similarly strapped, are looking for a way to pull troops out of Egypt.

On top of these basic world defense matters, France is having difficulty in Morocco and Tunisia, where native unrest has loosened the French hold on two of her long-established colonies. The French are particularly upset at the prospect that this issue might be brought before the U. N.

Though the British, being a colonial power, have considerable sympathy for France's plight—especially in the light of recent native activity in Britain's African colony of Kenya—they are troubled by French-American relations and don't want it to appear they are ganging up with the French against the U. S.

This list of tribulations is but a small sample from the agenda that will greet the new American chief executive, even before he takes office.

It illustrates a point often made by some of our thoughtful analysts of affairs—that the crush of events rather than declared campaign views will tend to set the pattern of American policy, both foreign and domestic, when the new President enters the White House next Jan. 20. The faces change, but the problems do not.

### UNCLE EF

A wife should watch out, says Aunt Sally Peters, when an ordinarily serious-minded husband tries to crack jokes at the dinner table. It's usually followed by such news as he's lost his job, or has joined another lodge.

### The Doctor Says... Cleansing, Attention to Diet Help Rout Adolescent Pimples

By EDWIN P. JORDAN, M. D.—Written for NEA Service

Acne (adolescent pimples) does not constitute a problem in diagnosis. Anybody can tell what it is. But it is not a condition to ignore, and thousands of youngsters in their teens become afflicted with it each year for the first time.

Although the majority outgrow acne eventually without scarring of the skin, it comes at a time of life when youngsters are terribly self-conscious anyway, and blemishes on the skin can and do make this self-consciousness much worse.

Acne appears for the most part on the face, neck, upper part of the chest and shoulders. The pimple usually starts as a reddish lump which is slightly tender to touch. It often develops into a "white head," which actually consists of a mixture of pus, germs, skin oil, and destroyed tissue cells. The pimple may be near the surface of the skin or quite deep.

In the milder cases, the pimples are spaced rather widely apart and are near the surface. In more severe ones they are closer together, break out more frequently and burrow deeper into the skin.

When a white head forms, the top of the pustule finally breaks open, the pus escapes, a crust forms and healing takes place. If the pustule has been large and deep, a permanent scar may be left.

though this is fortunately the exception rather than the rule.

Infection alone almost certainly does not explain the development of acne. Because acne is most common and usually most severe during the period of adolescence in both boys and girls it almost certainly has some relation to the changes in the glands and hormones which take place at that time, but hormone treatment is almost invariably disappointing.

Diet plays a part. Many, if not most, adolescents have a craving for sweets, and sweets (especially chocolate) almost invariably make acne worse, as do nuts and cheese.

#### MAINTAIN ACTIVITIES

Cleansing treatments, applications to the skin and general attention to the health are all indicated.

A youngster with acne should make a special effort to overcome the self-consciousness which acne brings, and should force himself or herself to take part in all social functions to which he or she would like to go otherwise.

Family and friends should be careful not to make remarks which will add to the self-consciousness. Comments on the pimples, even if done with the best of intentions, only make matters worse.

### Merry-Go-Round

By DREW PEARSON

WASHINGTON — President Truman has fairly definite ideas as to what he wants to do when he leaves the White House, but they may be hampered by problems at home.

The chief thing he hankers for after January 20 is a leisurely trip around the world. He wants to go to Europe and return the visit of the heads of states who have called on him, also attend the coronation of Britain's new Queen Elizabeth on June 5.

However, there are a couple of complications. One is the health of his 90-year-old mother-in-law, Mrs. David Wallace. The public hasn't generally realized it, but Mrs. Wallace has been living with the President and Mrs. Truman during most of their sojourns in the White House, and Mrs. Truman has been quite firm that she would not leave her mother for a long trip out of the United States as long as she is in poor health.

Another, though lesser, complication is finances. The President has not been able to acquire any monetary backlog during his seven years in office, and some way will have to be found to finance the trip.

One or two embassies have already discussed whether he could be entertained as an official visitor at the expense of their governments, even though by that time he will have lost his official status.

Mr. Truman wants to visit India, Japan, and various Asiatic countries and some consideration has been given to the idea of his making a series of speeches on the peaceful goals of the American people.

There has been so much Russian propaganda to the contrary, abetted in part by rash statements by American generals, that a good part of the world is sold on the idea that the United States wants war. State Department officials believe that a man of Mr. Truman's simplicity and directness might carry considerable impact in nullifying this propaganda. They have even been considering the idea of his making a whistle-stop tour aboard in favor of peace.

The President has also told friends that after his trip he would like to do some lecturing at a university and some writing on history. If so, he would follow the precedent of William Howard Taft, who became professor of law at Yale after he left the White House.

Hints have also been dropped around the Capital that Truman should be appointed a delegate to the United Nations.

However, no matter what he does, the President is genuinely looking forward to enjoying himself after he retires to private life.

#### EXIT THE TRUMANITES

Here's what some of the Truman cabinet members are going to do, come January 20.

Dean Acheson will go back to his law firm. Financially hard up, he might have retired earlier except that was under fire . . . President Truman has promised his secretary of the treasury, John Snyder, to help find him a job. Snyder was offered a job with the Bank of America four years ago, but turned it down . . . Secretary of Labor Maurice Tobin will return to his Boston law practice, perhaps enter politics again . . . Secretary of Commerce Charles Sawyer is returning to Cincinnati. He had planned some time ago to resign from the cabinet come what may . . . Secretary of Defense Robert Lovett will return to his Wall Street firm. Lovett has been in government now ever since the war days, as assistant secretary of war, undersecretary of state, undersecretary of defense, and now secretary of defense. A Republican, he has served steadily in Democratic cabinets . . . Postmaster General Jesse Donaldson is looking for smelting in private industry, the first nonpolitical career postmaster general, thousands of postal employees will celebrate his exit.

#### LONGER DRAFT PERIOD

Gen Mark Clark has sent the Pentagon an ultimatum that more replacements must be rushed to Korea or he will keep his frontline soldiers past their rotation date.

What Clark objects to is releasing combat veterans and replacing them with green G. Is at revolving-door speed. After a man is well trained for combat, Clark complains, he has to be sent home. That why he boosted the number of points required for rotation from 36 to 38, only to be overruled by Secretary of the Army Pace.

However, Clark is now threatening to hang onto his eligible returnees another month or two, despite Pace's order—unless the rate of replacements is increased.

This points up an army-wide complaint that the manpower turnover is so rapid the Army scarcely finishes training new men before they are released and the Army has to begin all over. As a result, the Defense Department probably will ask the new Congress next year to lengthen the time draftees must serve.

#### 20 YEARS AGO

Gladstone—City Manager F. R. Buechner spoke to the International City Managers' conference at Cincinnati on city finance problems.

Gladstone—Eight sites in the city have been offered the federal government for the construction of a new post office.

Manistique—Miss Orma Melton, Baptist missionary in China, will be the principal speaker at the Sunday morning service at 10 in the First Baptist church here.

#### 10 YEARS AGO

Escanaba—The Delta County draft board will be far short of its quota for the November call but the board has been instructed to make every effort to meet the December quota, which is expected to be about 10 percent higher than the November call.

Escanaba—The Lions Club is entertaining at its annual Sadie Hawkins Day party, arrangements for which are in the theme of the Al Capp cartoon strip.

Manistique—Miss Orma Melton, Baptist missionary in China, will be the principal speaker at the Sunday morning service at 10 in the First Baptist church here.

#### 5 YEARS AGO

Gladstone—City Manager F. R. Buechner spoke to the International City Managers' conference at Cincinnati on city finance problems.

Gladstone—Eight sites in the city have been offered the federal government for the construction of a new post office.

Manistique—A branch office of the Michigan state highway department has been established here. The office will be temporary and will supervise the construction on U. S. 2.

An Illinois judge disposed of 254 cases in four hours. Some included men who tried to dispose of almost as many in less time.

### Reception Committee

LONGER DRAFT PERIOD

Gen Mark Clark has sent the Pentagon an ultimatum that more replacements must be rushed to Korea or he will keep his frontline soldiers past their rotation date.

What Clark objects to is releasing combat veterans and replacing them with green G. Is at revolving-door speed. After a man is well trained for combat, Clark complains, he has to be sent home. That why he boosted the number of points required for rotation from 36 to 38, only to be overruled by Secretary of the Army Pace.

However, Clark is now threatening to hang onto his eligible returnees another month or two, despite Pace's order—unless the rate of replacements is increased.

This points up an army-wide complaint that the manpower turnover is so rapid the Army scarcely finishes training new men before they are released and the Army has to begin all over. As a result, the Defense Department probably will ask the new Congress next year to lengthen the time draftees must serve.

RECEPTION COMMITTEE

Washington—(NEA)—A final resting place which claims some of the most unusual features of any burial place in the country has just been dedicated here.

It is the National Memorial Park Cemetery, located several miles out of town in nearby Virginia.

No one single detail was overlooked in making the cemetery's dedication a 100 per cent Washington-type promotion. "Focal point and piece de resistance," as owner Robert Marlowe puts it, is huge new fountain surrounded by 38 bronze nude statues.

For weeks here interest in the dedication was whipped to fever pitch over the question of whether fig leaves should be appended to the nudes. But in a burst of artistic freedom, the noted Swedish-American sculptor Carl Milles, their creator, laid down the law that his statues shall stay nude all the way.

No less impressive than the fig leaf debate was the list of honorary patrons and patronesses Marlowe mustered for the large engraved invitations. On it were ambassadors, senators, governors, socialites, millionaires, Mrs. Franklin Roosevelt, Gen. and Mrs. Bradley, Frank Lloyd Wright, Mr. and Mrs. Arthur Krock, Pearl S. Buck and Mrs. Adelyn Breeskin, wife of the bandleader at the Shoreham Hotel.

Marlowe explains that the genius of Milles is what really attracted so much interest in his project by so many distinguished personages. Everyone agrees it was a unique party, even for Washington.

However, Clark is now threatening to hang onto his eligible returnees another month or two, despite Pace's order—unless the rate of replacements is increased.

This points up an army-wide complaint that the manpower turnover is so rapid the Army scarcely finishes training new men before they are released and the Army has to begin all over. As a result, the Defense Department probably will ask the new Congress next year to lengthen the time draftees must serve.

RECEPTION COMMITTEE

Washington—(NEA)—Janet Army, Navy and Veterans Administration.

Dr. Claude S. Beck, a noted surgeon who is an active worker in the project, says the room disasters happen to good-risk patients during only minor operations is deplorable.

For a patient with a good heart and good lungs to die because doctors and anesthetists did not know how to resuscitate him, he asserts, "is tragic."

"No surgeon should take a knife in his hand unless he knows how to resuscitate a patient. It is not fair to the patient."

When a heart collapses, the brain is cut off from its normal supply of oxygen, causing it to die or suffer permanent damage. Therefore, the first step taught in the resuscitation procedure is the restoration of oxygen.

"Once you have done that," says Beck, "the crisis is over. The human heart wants to beat and any normal heart can be revived. Once you get the oxygen system in operation so the brain does not die, you can even summon a surgeon from another building to start the heart on its own again. Squeezing the heart will circulate the blood

to the brain until it starts its automatic beating."

The responsibility for detecting the signs of collapse well enough in advance so that something can be done, say the medical men, is that of the anesthetist. Once the usually clear signs are noted, they can normally be controlled by saturating the red blood cells with oxygen.

## Popularity Of Ike Equaled By Few In U. S. Voting History

(By The Associated Press)

A cold appraisal of election statistics today leads to the conclusion that president-elect Dwight D. Eisenhower enjoys a nationwide popularity to which few, if any, other men in history could lay claim.

The political fires which blazed across this nation for four long months have been reduced to embers and it is easier to discard personalities and examine statistics. Here are some things the statistics show:

1. Eisenhower received more votes than any presidential candidate in history—millions more than any other. Too, the total vote was the greatest ever recorded.

2. His immense vote-appeal swept into office with him a majority of Republican candidates for the Senate, the House of Representatives and for governors of the several states.

**Solid South Shattered**

3. His electoral vote total was the second highest ever piled up by a Republican—just a shade under the total accumulated by Herbert Hoover in 1928 when religious prejudice against his opponent, Alfred E. Smith, figured prominently in the returns.

4. Eisenhower shattered the once "Solid South," winning three of the most staunchly Democratic states in the country and apparently adding four of the almost-always Democratic border states.

5. He punctured the Democratic strongholds of Massachusetts and Rhode Island where Irish-Catholic citizens have voted in blocs for the Democrats for a quarter of a century.

Of the nation's 146,361 voting units, all but 10,842 had been tabulated by daybreak today. Eisenhower had piled up vote total of 31,875,451 compared to 25,668,925

for Adlai Stevenson, his Democratic opponent.

In the electoral college, where presidents actually are chosen, Eisenhower had won 442 votes against 89 for Stevenson. And Kentucky might yet go to Eisenhower. Hoover received 444 electoral votes to 87 for Smith in 1928. Only one other Republican—Warren Harding—got more than 400 electoral votes. That was in 1920 when Harding won over James Cox, 404-127.

Virginia, Florida and Texas went Republican. In addition to Missouri and Tennessee, the border states that went for Ike were Maryland and Oklahoma.

Eisenhower ran far, far ahead of his party, sweeping Republicans into office with him, in many cases over strong Democratic opposition.

**Morse Holds Key**

In Wyoming, for instance, Sen. Joseph O'Mahoney, a highly ranked Democrat, lost to Gov. Frank Barrett when Eisenhower took the state, ending a Democratic grip on its voters. The same thing happened in Arizona where Sen. Ernest McFarland, Democratic majority leader, lost to Barry Goldwater, a political novice.

Whether Eisenhower will retain his tremendous popularity through the next four years remains to be seen. His majorities in both houses of Congress are very thin indeed—48 to 47 in the Senate and, at this moment, 220 to 214 in the House.

Eight races in the House have not yet been decided, but Democrats are leading in all of those contests and if they all win, the 220-214 alignment will result.

Sen. Wayne Morse of Oregon holds the key to whether the Republicans will have a working majority in the organization of the Senate. He was elected a Republican but bolted the party to support Stevenson.

**Chance For Nixon**

If he lines up with the Democrats, the alignment will be 48-48 with Vice President Richard Nixon having the opportunity to resolve the tie in favor of the Republicans.

Republicans gained five governors in Tuesday's voting, boosting their lead in the state's gubernatorial mansions from two to 12. That ratio will hold if the two races still in doubt, in Michigan and Montana, go the way they are headed now.

Before the voting, there were 25 Republican governors and 23 Democrats. Now there are 19 GOP governors and 17 Democrats.

BIRTHDAY PORTRAIT—Dressed in the uniform of a general, King Gustav Adolph VI of Sweden, poses for his birthday portrait, in the royal castle at Stockholm. The Swedish monarch will be 70 years old Nov. 11.

### Department Changes List Of Trout Lakes

LANSING (AP)—Changes in the list of designated trout lakes for 1953 were announced today by the State Conservation Department.

Fishing is forbidden in these lakes except during the trout season.

Additions for 1953 are Grants, Hike and Rock lakes, Alger County; and Rock and Tilden Lakes, Marquette County.

Lakes removed from the list and now open to other types of fishing are Dead, Grand Marais, Melville and Legion lakes, Alger County; Townline Lake, Clare County; Lost Lake, Gogebic County; Long Lake, Iron County; Manganes Lake, Keweenaw County; Musgrave Lake, Luce County, and Little Trout Lake, Marquette County.

ADDITIONS FOR 1953

Republicans gained five governors in Tuesday's voting, boosting their lead in the state's gubernatorial mansions from two to 12. That ratio will hold if the two races still in doubt, in Michigan and Montana, go the way they are headed now.

Before the voting, there were 25 Republican governors and 23 Democrats. Now there are 19 GOP governors and 17 Democrats.

## Radio Winner Loses Protest

WASHINGTON (AP)—The Federal Communications Commission ruled in effect today that it will not take sides with a disappointed winner on a giveaway broadcast.

The commission dismissed, in a brief memorandum, a protest filed by Betty Lou Summers of Washington against the recent renewal of license for WNBW, National Broadcasting Company television outlet here.

Miss Summers said she won a contest on the TV program known as "Inga's Angle" early this year, and had been promised prizes worth \$4,000 to \$5,000, including a mink stole. Instead she said she received a fur piece made of Oriental weasel, and other alleged substitutes.

The station, now defending a \$5,000 damage action brought by Miss Summers in Federal Court, has denied any misrepresentation.

The FCC, which has long frowned on giveaway programs, simply refused to get involved. It said Miss Summers did not qualify as "a party in interest" entitled to challenge station licenses under the communications act.

### Bee Strain Improved By Cross-Breeding

SRINAGAR, Kashmir (AP)—Government officials say the importation of Italian honey bees has improved the local strain.

The development of hybrid types by crossing Kashmir's native bees with queen bees of superior type imported from Italy was so successful that 17 bee colonies including several million insects were bred in one year, officials reported.

Honey production by the new types, bred from the Italian Apis Mellifica species, is said to be far superior to that of the usual Indian types. The Italian-Kashmir honey makers will have their first general showing next year when the All-Indian Beekeepers Conference meets here.

### Two Thirds Of Bees West Of Mississippi

LOS ANGELES—About two thirds of the 5,600,000 colonies of bees in the United States are east of the Mississippi River.

Although approximately 500,000 persons keep bees in this country, 80 per cent of the colonies belong to about 50,000 beekeepers. About 1,000 of these depend on bees for their livelihood. This group controls about 40 per cent of the colonies.

ADDITIONS FOR 1953

## Delta Potato Growers In Top Place At U. P. Show

Two Delta County farmers won top berths in the Michigan Premier Potato Grower contest during the 23rd annual Upper Peninsula Potato show at Crystal Falls Nov. 4, 5, and 6.

Paul Van Damme of Cornell, who had a yield of 948.7 bushels per acre of table stock, and Frank Falkies, whose yield was 1,083.4 bushels per acre of seed potatoes, won the awards for Delta County.

Other winners in the premier contest for table stock producers were: Richards Brothers, of McMillan, 2nd; George and Francis Van Damme of Rock, 3rd;

### DICKINSON GIRL QUEEN

Miss Caroline Jones of Dickinson County was selected as Upper Peninsula Potato Queen during the annual show. Delta County's queen candidate was Miss Everell Miron of Cornell.

George Terrain of Cornell, 4th; Charles Graves of Stephenson, 5th; John Verbrugge of St. Nicholas, 6th; Jerome DeBacker of Watson, 7th. Yields ranged from Van Damme's top of 948.7 to 727, for DeBacker.

### Ironwood in 1953

In the premier certified seed potato contest, Pat DeBacker of Rock placed 2nd; Ernest Hamel of Champion, 3rd; D. J. Woods, of Newberry, 4th; and Walter Menza of Daggett, 5th. Yields ranged from Frank Falkies' high of 1,083.4 bushels to 887 bushels per acre for Menza.

Upper Michigan potato growers selected Ironwood as the site for the 1953 U. P. potato show.

Delta and Schoolcraft county farmers who placed in the Class 1 table stock exhibit were as follows:

Russet Rurals—Pat DeBacker of Rock, 3rd; Clarence Sundquist of Escanaba, 4th; Frank Falkies of Watson, 5th.

Third 15—Henry LaChapelle, Rock.

### Van Damme First

Seventeen varieties of potatoes were exhibited in the annual Upper Peninsula show. There were 52 open class entries, 13 certified seed exhibits, and 94 exhibits of table stock. Peninsula 4-H clubs had 38 exhibits.

Class 11 certified seed winners from the two counties were as follows:

Russet Rurals—Pat DeBacker of Rock, 3rd; Clarence Sundquist of Escanaba, 4th; Frank Falkies of Watson, 5th.

### Other Varieties—None.

Class III, open class exhibits of 32 tubers, brought awards to the following Delta and Schoolcraft farmers:

Russet Rurals—Gerard Van Damme of St. Nicholas, 1st.

Russet Burbanks—Otto Sarikko of Rock, 3rd.

Other Varieties—Van Damme brothers of Rock, third.

Delta and Schoolcraft counties had no winners in the Green Mountain, Pontiac, Katahdin and Sequoia entries.

Sabag—Ben Lippens of Rock, 1st; Ralph Lippens of Rock, 3rd.

Girard Van Damme of Rock won the Marquette Mining Journal sweepstakes cup for the best 32 tuber sample in the show.

### 4-H Club Winners

The 1952 premier growers contest was won by Miss Eunice McGahan, 17, daughter of Mr. and Mrs. Henry McGahan of Cooks, and John Knaus, 14, son of Mr. and Mrs. Grey Knaus of Cornell. Miss McGahan will receive a trip to the National 4-H club congress and John Knaus a trophy.

Winners in the Class IV, 4-H club exhibits, were as follows:

Russet Rurals—John Knaus of Cornell, A; Dale McEachron and Avis McEachron of Cooks, T.

Green Mountains—Richard McGahan of Cooks, A.

Sabag and White Rurals—Eunice McGahan of Cooks, A; William Woodard of Cornell, C.

Other varieties—William Williamson of Rapid River, A; Lloyd Williamson of Rapid River, B; Dale McGahan and McGahan of Cooks, C.

Delta and Schoolcraft county club exhibits in the show scored B.

Charles Bergdahl of Skandia won the sweepstakes award for the best 32 tuber sample in 4-H club exhibits.

### Schaffer

SCHAFFER — Mrs. E. LaBranche returned to Detroit after a visit with her son-in-law and daughter, Mr. and Mrs. Louis Sabourin. Other visitors at the Sabourin home were Mr. and Mrs. Kemp Sabourin of Arlington, Va., whose marriage took place recently, Mr. and Mrs. Rene Sabourin and children of Escanaba and Mrs. Pat Milligan and daughter Phyllis of Foster City.

### Holy Name Reorganized

The Holy Name men of Sacred Heart parish held a reorganization meeting at the parish hall and elected Andrew Tangay, president, Conrad Heriou, vice president, John Zawada, and Ed Taylor, marshall.

### Stewardess Admits Killing; Not Indicted

ST. LOUIS (AP)—A county grand jury yesterday heard a former stewardess tell her story about the slaying of an airline official, then refused to indict her.

Pretty Mrs. Thomas H. Van Bibber, 20, testified for 55 minutes. Her testimony remained secret.

Lawrence Kell, an Ozarks Air Line superintendent, was fatally shot last March in front of the girl's apartment. Mrs. Van Bibber, whose name then was Betty Lou Tracy, worked for the same airline.

Police quoted her as saying she shot Kell, 43-year-old father of two children, after he threatened her life for associating with other men.

### Bomber Carries 11 To Death In Britain

DUNMOW, England (UPI)—A U. S. Air Force B-50 strato bomber with a crew of 11 crashed and burned here just before midnight last night. An Air Force spokesman said no survivors have been found.

### Heads Broadcasters

DETROIT (UPI)—Milton L. Greenebaum of Saginaw is the new president of the Michigan Associated Press Broadcasters Association.

Greenebaum, president of radio station WSAM, succeeds J. P. Scherer, general manager of WHBF, Benton Harbor, as head of the AP group.

The association presented to WKZO, Kalamazoo, with a golden trophy for the best contributions to the AP news report from the Michigan radio field.

PERKINS—Staff Sergeant Valere Van Damme, son of Jules Van Damme of St. Nicholas, returned home Wednesday after serving in the Engineering Corps two years, the past year in Korea. He expects to receive his discharge in the near future.

**SHE FINDS "SWEET" IDEA ALL WET**—Eleanor Benveniste, who is a TV actress in Hollywood, decided to help promoters of National Honey Week "feather" their nest by allowing herself to be coated with three gallons of

honey, left. Eleanor thought she'd be tickled to let bystanders toss feathers at her, but found the idea was "all wet," at right, when she tried to wash off the gooey mess.

## Red Submarine Fleet Biggest

### Congressmen Get Start On Spoils Of GOP Victory

(Continued From Page One)

LONDON (AP)—Britain's authoritative naval yearbook, says the Soviet Union's submarine fleet still is by far the world's largest although it appears to be the same size as a year ago.

The 1952-53 yearbook, published yesterday, reported the same number of Russian undersea craft as in its last edition—370 afloat and 120 others being built. Jane's acknowledged, however, that Soviet military security limited the exactness of the information.

Jane's reported the U. S. Navy's "colossal fighting force" is the largest peacetime fleet ever maintained by any country—as big as all the other navies of the world combined.

The U. S. submarine force of 200 ships, however, was greatly out-classed by the Russians. Britain's subs were listed at about 50.

**4-H Club Winners**

The 1952 premier growers contest was won by Miss Eunice McGahan, 17, daughter of Mr. and Mrs. Henry McGahan of Cooks, and John Knaus, 14, son of Mr. and Mrs. Grey Knaus of Cornell. Miss McGahan will receive a trip to the National 4-H club congress and John Knaus a trophy.

Winners in the Class IV, 4-H club exhibits, were as follows:

Russet Rurals—John Knaus of Cornell, A; Dale McEachron and Avis McEachron of Cooks, T.

Green Mountains—Richard McGahan of Cooks, A.

Sabag and White Rurals—Eunice McGahan of Cooks, A; William Woodard of Cornell, C.

Other varieties—William Williamson of Rapid River, A; Lloyd Williamson of Rapid River, B; Dale McGahan and McGahan of Cooks, C.

Delta and Schoolcraft county club exhibits in the show scored B.

Charles Bergdahl of Skandia won the sweepstakes award for the best 32 tuber sample in 4-H club exhibits.

A partial listing of elected county officers follows:

### Menominee County

Prosecuting Attorney—Victor Lundgren Jr. (R)

Sheriff—Edward Reindl. (R)

Clerk—Harry N. Gilbertson. (R)

Treasurer—Mrs. Maude Prince. (R)

Judge of Probate—Mrs. Katherine Stiles Laughton.

### Dickinson County

Prosecuting Attorney—John V. Zanardi (D)

Sheriff—Amedeo Pesavento (D)

Clerk—Frank Borla (R)

Treasurer—Peter J. Brouillette (R)

Register of Deeds—Charles G. Blackberg (R)

Judge of Probate—Roy R. Dernham

### Marquette County

Prosecuting Attorney—Edmund J. Thomas (R)

Sheriff—Al Jacobson (R)

Clerk—A. H. Olson (R)

Treasurer—Vining Bjork (R)

Register of Deeds—Elsie T. Cardoni (R)

Judge of Probate—Carroll Rushton

### Mackinac County

Prosecuting Attorney—Edward G. McNamara Jr. (R)

Sheriff—Roland Cheseeman (R)

Clerk—William Quance (R)

Judge of Probate—H. L. Taylor

### Luce County

Prosecuting Attorney—Thomas A. Worsham (R)

Sheriff—Russell Hild (R)

Clerk—W. R. Thorson (R)

Treasurer—J. L. Minard (R)

Judge of Probate—Clifford E. Erickson

### Potter To Take Oath As Senator Dec. 1

According to figures of the two city clerks, Grand Rapids turned out 81.7 percent of its registered voters in Tuesday's election. The Flint figure was 80.5 percent.

Graves punched in at the local furniture plant at 8 a. m. He was to work in the polishing department until 5 p. m.

Graves said he would give his day's pay—about \$13—to charity.

He works for a mortgage and title firm in Flint.

### Bolshevik Revolution Parade Is Brief One

MOSCOW (AP)—One of the shortest military parades ever seen in Moscow marked the 35th anniversary celebration today of the Bolshevik revolution. Prime Minister Stalin reviewed the parade from his usual place atop the big marble tomb of Lenin in Red Square.

Because of low clouds there was no display of Soviet airpower, as has been the case in past years.

Stalin, who will be 73 on Dec. 21, walked up about 80 steps to the reviewing platform. He made the climb with no apparent exertion.

Curtis B. Potter, reporter for the AP news service, said he planned a vacation in the south after taking the oath as a senator.

### Christians Beheaded

MANILA (AP)—Pagan head-hunters in wild Nueva Ecija province decapitated two Christians

and offered the heads as trophies to a young native woman, the Philippines News Service reported today.

Other reports from the Michigan radio field.

## \$65,457 Received In Tax Diversion

State sales tax diversion money totaling \$65,457.32 was received this week by County Treasurer Ann S. Villeneuve and distributed yesterday to township and city school treasurers.

The sum forwarded here representing the payment for the third quarter of 1952, was apportioned to the county school units on the basis of \$6.68 per 1951 census child.

The city schools of Escanaba received \$26,072.04 and those of Gladstone were credited with \$8,884.40.

Following are the sums received by the townships and rural agricultural districts:

Baldwin, \$1,536.40; Bark River,

\$5,283.88; Brampton, \$1,042.08;

Cornell, \$1,242.48; Escanaba, \$2,-

458.24; Fairbanks, \$1,075.48;

Ford River, \$1,870.40; Garden,

\$1,516.36; Maple Ridge, \$3,453.56;

Gulf, \$2,070.80; Rapid River,

\$3,647.28; Wells, \$5,303.92.

A disbursement of \$3,796.61 from redemptions and delinquent taxes collected last month by the county treasurer was also made this week.

Of the total, \$2,389.09 went to the township and city treasurers, \$1,372.54 reverted to the county general fund and \$34.98 was sent to the state as its portion.

The disbursement to the county units is as follows:

Baldwin, \$9.83 Bark River,

\$37.87 Bay of Noc, \$53.60;

## Deputy Warden Takes Old Job

JACKSON (AP)—Seymour Gilman, deputy warden at Southern Michigan Prison since June 1 of this year, announced he was resigning his post to resume his position as an administrative assistant to State Corrections Commissioner Ernest J. Brooks.

Gilman said he expects to resume his old duties on Nov. 16 on Dec. 2. He said Tuesday's election "in no way" influenced his decision to give up the deputy wardenship.

"I had an understanding with Brooks when I accepted the appointment at Southern Michigan, that I could return to my old position," Gilman said.

Gilman, who worked with Warden Julian N. Frisbie until Frisbie was replaced by Warden William H. Bannon, said he thought "the tension has completely subsided at Southern Michigan."

He said Warden Bannon was a capable prison administrator and predicted Bannon would have a successful tenure of office at the huge penal institution.

Gilman started in the state corrections system in 1937. He was sent to Southern Michigan Prison following the institution's two riots this year. He is noted for his work in organizing prisoners in work camp projects.

Warden Bannon said Gilman's duties would be taken over by four assistant deputy wardens, Charles F. Cahill, Harold W. Tucker; Carl Brayman, and George Bacon.

## Germans Plan Climb To Himalayan Peak

MUNICH, Germany (AP)—A German Himalayan expedition is quietly preparing here to scale the great Nanga Parbat peak as Germany again takes up the threads of war-disrupted ventures into scientific achievement.

Dr. Karl von Krauss, chairman of the society which plans to launch its first expedition in 1953, stresses that the program is one aimed at science only. In choosing the 26,653-foot-high Nanga Parbat, the Germans have picked a mountain which already has turned back the best of German-Alpinists. Thus far the expedition includes nine climbers.

Four previous German attempts failed to scale the peak, located where the borders of Russia, China and India meet. Last to find defeat at the hands of the towering Himalayan mountain was a party which attempted it in July, 1954.

## Vesuvius Smolders In Long Inactivity

NAPLES (AP)—Mt. Vesuvius, the picturesque volcano known to millions of travelers, is taking its longest rest since 1951.

While the 3,891-foot mountain which forms a backdrop for the beautiful Bay of Naples, continues to smolder, it has been inactive in the scientific sense since March, 1944, says Prof. Antonio Parascandola of Naples University.

The professor made a survey of the crater recently after published reports that astrologers were predicting an eruption. The professor said tests showed underground heat below the crater exceeds 570 degrees centigrade.

If the temperature should rise another 100 degrees centigrade, he explained, "it would be a sign that a resumption of activity could be expected."

The last damaging Vesuvius eruption, in 1944, destroyed the funicular railway to the top of the mountain and damaged many U. S. Airforce bombers stationed nearby.

## Rust-Control Tests Planned In Norway

TRONDHEIM, Norway—The Study Society for Norwegian Industry has announced an extensive research program to learn the most effective ways of controlling rust. The society will establish seven control stations in various parts of the country to test all sorts of rust preventatives.

About 200 steel plates will be set up outdoors at each station. All will face south at an angle of 45 degrees. A variety of paints and other metal preservers will be applied. These will be tested regularly by traveling inspectors.

**ROYAL PLUMAGE FOR A DAY**—The coronation of Queen Elizabeth II, scheduled for June, 1953, presents a clothing problem to England's royalty. Under austere English economy, traditional velvet-and-ermine coronation robes, at hundreds of pounds apiece, are almost out of the question. Companies which specialize in renting royal costumes are expecting a bumper business. At left is seen a robe suitable for wear by a Viscountess, and at right what the well-dressed Viscount may hire for the ceremony.

## North Country Gets Set For Its Biggest Deer Hunt Invasion

By JAMES A. O. CROWE  
Associated Press Outdoor Writer

LANSING (AP)—Michigan's north country is getting set for the biggest invasion of deer hunters it has ever seen by the end of the week.

The state's 16-day deer season starts at 6 a. m. Saturday, Nov. 15, and it is expected that nearly a million hunters will get into the woods before the close on Nov. 30.

The highest number of deer hunters Michigan ever had was close to 400,000. But this year's liberalization of regulations to permit the killing of more deer is expected to attract at least 100,000 more hunters.

**Kill of 250,000**  
And the kill is expected to jump to 250,000 deer. This will mean that hunters' chances of bringing home venison jump from one in three of former years to one in two.

All this is brought about by the Conservation Commission decision to permit the killing of does and fawns as well as bucks during the last three days of the season in the northern lower peninsula.

This region, between M-20 and the Straits of Mackinac, has long had too many deer for the available natural food. The herd is in poor health and condition because of this, and the harvesting of more of the annual crop of deer is expected to relieve the situation.

Checks of the reproduction rates and other signs of herd health show that the herd is in poorest condition in the northern lower

peninsula, a little better in the Upper Peninsula and best in the southern Lower Peninsula where food is plentiful.

### Weather Plays Hand

Of course, if the weather does not cooperate, the predictions of hunter success can be blown sky-high. Several good blizzards would cut seriously into the number of hunters and the kill.

Many county road commissions have promised to hold special crews in readiness to plow out the most important back roads if it becomes necessary.

The Conservation Department is making a special effort to get information about the deer herd this year, and the special cooperation of deer hunters is going to be needed.

A network of checking stations has been set up, most of which will be manned by trained biologists and other workers. Hunters returning with deer are asked to stop voluntarily and let the department men examine their deer. They will determine its age, check its general physical condition and make a note of where it was killed.

When this information is put together, it can tell the biologists a lot about the herd and make planning for future management much more effective.

Thirteen crops account for 90 per cent of the vegetable oils of commerce. Most important of these are coconut, peanut, cottonseed, soybean, mustard, flax and the olive.

## Rural Church Notices

### AMERICAN SUNDAY SCHOOL UNION

## 3 Delicious Milk Drinks for the Whole Family

By MARY MANNING

Here are just three of the many delightful ways to treat your family to delicious, healthful FAIRMONT MILK. Everyone, teenagers and adults, as well as children should drink milk every day. We never outgrow our need for this wonderful food.

You'll like the deep-down creamy goodness of FAIRMONT MILK refreshes, satisfies. It's the GROW FOOD—the GO Food. So that everyone in your family gets several glasses of cold, fresh Fairmont Milk every day. Try these recipes. Serve them often.

**STRAWBERRY FLOAT**—Add large scoop of Fairmont Vanilla Ice Cream to each glass. Fill  $\frac{3}{4}$  full with cold Fairmont Milk. Top with strawberry preserves. Mix well and serve at once.

**PINEAPPLE FLOAT**—Add large scoop of Fairmont Vanilla Ice Cream to each glass. Fill with cold Fairmont Milk. Top with pineapple preserves.

**BLACK COW**—Mix  $\frac{1}{2}$  cup of chocolate syrup to 4 cups cold Fairmont Milk. Pour into 6 tall glasses. If desired, top with whipped cream.

No matter how you serve it, once you've tasted how delicious Fairmont Milk really is, you'll say it's the best milk in town.

**Give A Woman A Broom, Look Out, Even In Politics**By DOROTHY ROE  
Associated Press Women's Editor

Never underestimate a woman with a broom.

U. S. women, voting in the greatest numbers in history, held the balance of power in the recent election. For the first time, women outnumbered men on voting registers.

Old-time politicians, analyzing the results of one of the greatest election sweeps in generations, agreed on one point—keep an eye on the girls from now on.

Gen. Dwight D. Eisenhower predicted on the eve of election that "morally indignant women" would sweep the Republican party to victory. Through television, they sat in at the political conventions last summer, chose up sides, rolled up their sleeves and went to work.

**Above Party Lines**

You've been seeing them and hearing them for the last few weeks as they handed out campaign buttons and literature, rang doorbells, conducted telephone campaigns, organized local clubs and threw their full efforts into getting out the vote. The cry of most of them was:

"Vote as you please, but please vote!"

The activities of the majority of U. S. women who registered their power at the polls transcended party lines. Non-partisan organizations such as the General Federation of Women's Clubs, the Business and Professional Women's Clubs, the DAR and even the Girl Scouts and Camp Fire Girls threw the weight of their membership of millions into the drive to awaken the responsibilities of citizenship.

**Working Together**

Among the women of widely different political background who took part in the campaign were such divergent personalities as Mrs. Wendell Willkie, widow of the Republican standard bearer of 1940; Oveta Culp Hobby, wartime head of the WAC; Mrs. Fiorella LaGuardia, widow of New York's long-time mayor; Mrs. Robert Patterson, widow of the former secretary of war; Sara Delano Roosevelt, young granddaughter of the late President Franklin D. Roosevelt.

Another woman whose power was felt in the campaign—in a different way—was quiet, smiling Mamie Eisenhower, who knew how to exchange homey woman-talk with feminine constituents across the country. She made no campaign speeches but won the hearts of many of her countrywomen simply by being at her husband's side, as a good wife should.

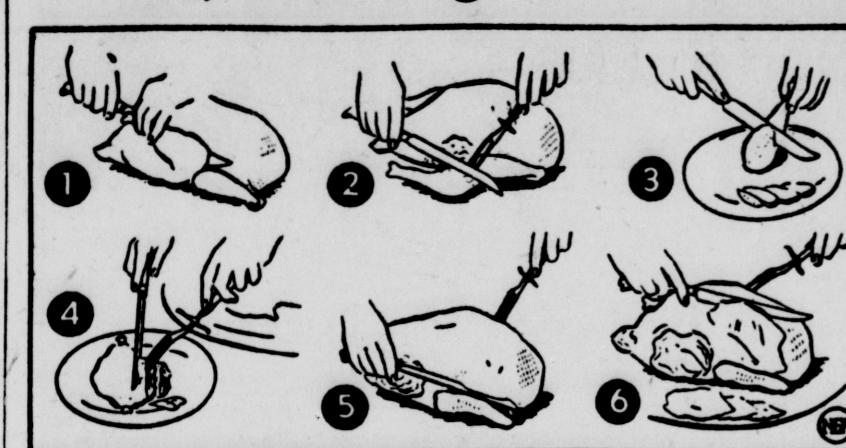

**Social Situations**

You are invited to a wedding and the reception afterward.

WRONG: Feel the invitation does not require an answer.

RIGHT: Be sure to answer the invitation since the bride's mother will need to know how many to plan for at the reception.

There are two points to remember in using fresh pork: Keep it well refrigerated until it is used, and cook it slowly and thoroughly.

**Turkey Carving Is No Trick**

By GAYNOR MADDOX

A sharp knife, a long-pronged fork, a few clear directions and reasonable patience—that's really all you need to carve that beautiful roast turkey in the style it is accustomed to.

1. To Remove Leg — Hold the drumstick firmly with fingers, pulling gently away from turkey body. At the same time cut through skin between leg and body.

2. Press the leg away from body with flat side of knife. Then cut through joint joining leg to backbone and skin on the back. Hold the leg on service plate with drumstick at a convenient angle to

plate. Separate drumstick and thigh by cutting down through the joint to the plate.

3. Slice drumstick meat. Hold drumstick upright at a convenient angle to plate and cut down, turning drumstick to get uniform slices.

4. Slice thigh meat. Cut slices of meat parallel to the bone.

5. Cut into white meat parallel to wing. Make a cut deep into the breast to the body frame, parallel to and as close to the wing as possible.

6. Slice white meat. Beginning at front, starting halfway up the breast, cut thin slices of white meat down to the cut made parallel to the wing. The slices will fall away from the turkey as they are cut to this line. Continue carving until enough meat has been carved for first servings.

How to roast half a turkey—for a small family it is often more economical to purchase half a turkey. John B. Russell, one of the best ways for her to handle the situation? Most wives make the mistake of going directly to the other woman, as was true of this wife:

(Q) "I believe I am even worse off than I was before. I do not want to give my husband a divorce so I decided on what I thought was the next best thing. I went to see the other woman. I spoke my piece and accomplished nothing. My husband found out about my visit and is now living with her. She is tricky and hopes I will divorce him. She said she knew he would marry her if I did. He has and is providing most generously for me but I want him back. What can I do?"

(A) The less you do now the better you will be. You have already done too much. You have made things worse by your tactics as you can judge from your husband's behavior.

A woman who will stoop to take another woman's husband and live with him will do anything to gain her end.

You aided her when you went to see her. Of course she told your husband about your visit and she doubtless made it seem far more humiliating to her than it was. Thus she became a martyr in his eyes and he has rallied to her defense.

So long as you still love him, in spite of his behavior, the only thing you can do is to adopt a wait and see policy. Take a determined stand against divorce at any price. Let him know it is he you want, not alimony.

When the other woman decides that she is hitting her head against a stone wall, as she sooner or later must realize, she may conclude she is waging a losing battle. She can't hope to hold your husband indefinitely if she has no legal claims on him. This is where you have the upper hand.

As time goes on and if things become worse instead of better, there may be nothing left for you to do but to forget him and give up all hope that he will come back to you. This, however, does not mean that you should free him from his obligations to you.

If you have a problem about family or friend, ask Dr. Hurlock to help you. Write in care of this newspaper.

**Rev. Byron Hahn Speaker Tonight**

The Rev. Byron Hahn of Sturgis, Mich., will speak at the closing weekday service of the United Methodist Evangelism Mission this evening, 7:30 at Central Methodist Church. The services during the week have been well attended and Mr. Hahn's messages, stirring and timely.

**First Friday All Night Vigil At St. Francis Chapel**

The customary all night prayer service in observance of the First Friday will be held at St. Francis Hospital Chapel beginning this evening.

The first hour of the vigil will be a youth hour beginning at 8. The sodalities, members of the Fighting 69th and all children are invited to be present. The service will include veneration of a true relic of the child saint, St. Marie Goretti, patron and model of chastity.

The hour beginning at 9 will be in charge of Fourth Degree Knights of Columbus. All Third Degree Knights also are invited to attend.

The Third Order of St. Francis will have the hour beginning at 10 and the hour of 11 will be a special time of prayer in preparation and hour of the Sacred Heart. The midnight hour will be dedicated to the Immaculate Heart of Mary.

The late hours of the vigil which closes with the Saturday morning mass at the chapel will be attended by volunteers from all parishes who will offer prayers in petition for peace, in thanksgiving for blessings received and in reparation for the sins of the world.

**United Mission Closes With Mass Meeting Sunday**

The United Evangelistic Mission in session here since Nov. 2 with Methodist churches of the area participating will close at a mass meeting Sunday at 3:30 p. m. EST, at the First Methodist Church.

The speaker of the final session will be the Rev. William B. Petherick of the First Methodist Church of Marinette. His subject will be "Remember, the Cross You Carry Carries You." The music will be sung by the First Methodist Choir.

Ministers, evangelists and lay workers of all Methodist churches of the district will attend the mass meeting. They include Manistique and Gladstone, Trinity and First Methodist of Iron Mountain, Norway, churches of the Hermansville Circuit, Stephenson, Menominee, Bark River and Central and First Methodist of Escanaba.

**St. Anne Society Names Officers**

HERMANVILLE—At a regular monthly meeting of the St. Anne Society held Tuesday evening the following women were elected to office: Mrs. Virgil Malone, president; Mrs. Ted Peterson, vice president; Mrs. Edward Fish, secretary; and Mrs. Mary Rodman, treasurer. The retiring officers are Mrs. Chester Papineau, Mrs. Wilfred Menard, and Mrs. Beatrice Fettez.

The meeting was attended by a large number of practical nurses and student nurses.

Mrs. Gladys Birkenmeier, president of the Delta District, gave a concise report on the district presidents' meeting at Lansing and announced that Marquette's invitation to hold the 1953 convention of the association there in June has been accepted.

A social hour followed the program. Hostesses were Mrs. Betty Sloane, Mrs. Leah Dubord and Mrs. Laura Koehel of Gladstone.

Any honey on the kitchen shelves? Use it to sweeten baked apples or hot chocolate.

**Births**

Mr. and Mrs. Blaine S. Clausen, 609 S. 10th St., are the parents of a son, weighing 7 pounds and 13 ounces, born at St. Francis Hospital Nov. 5.

A daughter was born to Mr. and Mrs. Lloyd J. Tuly, 113 S. 6th St., Nov. 6 at St. Francis Hospital. The baby weighed 5 pounds and 1½ ounces at birth.

Mr. and Mrs. Henry C. Hughes, Gladstone Rte. 1, are the parents of a son born at St. Francis Hospital Nov. 6. The baby who will be christened Raymond Francis, weighed 8 pounds and 7 ounces at birth.

Mr. and Mrs. Paul H. Woolford, 211 N. 14th St., are the parents of a son, weighing 1 pounds and 8 ounces, born at St. Francis Hospital Nov. 6. The baby's name is Thomas Joseph.

Mr. and Mrs. Charles Harvey of Lansing announce the birth of their first child, a daughter, who arrived Monday, Nov. 3. The paternal grandparents are Mr. and Mrs. A. J. Harvey of 923 6th Ave. S.

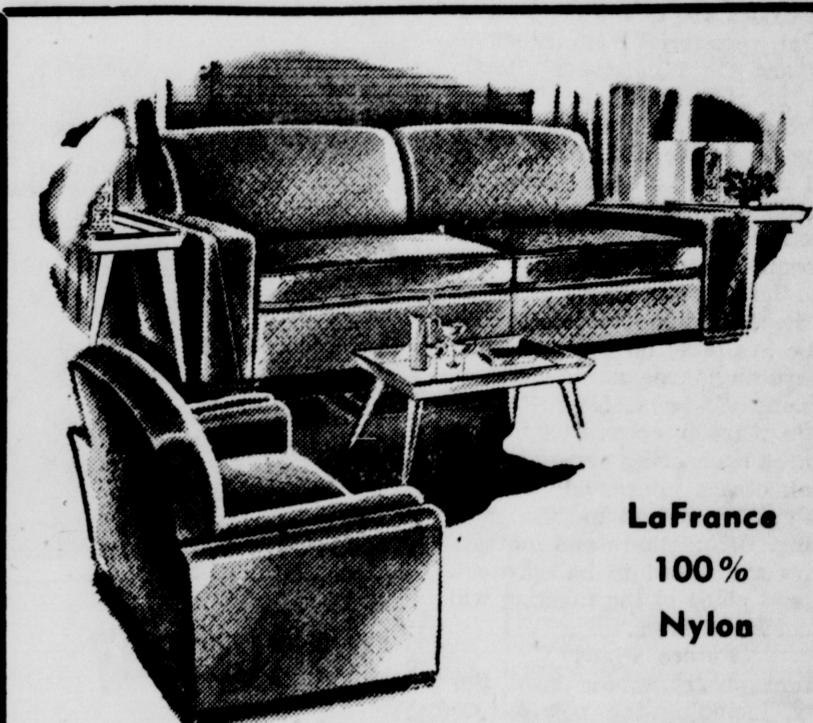

**Annual Dinner At St. Thomas Hall**

St. Thomas parish annual harvest turkey dinner will be served at the parish hall Sunday, Nov. 9, under the sponsorship of St. Thomas Guild. Serving will be from 4 to 8. Mrs. Al Houle is general chairman of the dinner and Mrs. Ed Turnquist is dining room chairman. The public is invited.

You will like the Fairmont "Flavor-of-the-Month"—FAIRMONT CHOCOLATE ALMOND! It is a good-tasting combination of chocolate ice cream and toasted almonds. It is smooth, rich and creamy—with the wonderful flavor of chopped nuts in every bite. It is the kind of ice cream that has made Fairmont famous—the reason why folks say, "Fairmont Ice Cream is the cream in the half-gallon carton."

That is the way modern home-makers buy ice cream. One carton holds 16 servings. Stores conveniently in your refrigerator or home freezer, too.

Next time you shop—pick up a half-gallon of FAIRMONT ICE CREAM. Save those extra trips to the store. You get the most delicious ice cream in town!

## Scoutmasters Needed Here

Approximately 40 Manistique boys of Scout age enthusiastically called for reactivation of the Boy Scout program in Manistique this year at a Scout mass meeting Wednesday evening at the National Guard armory.

The boys, many of them already Scouts, pledged their assistance in seeking Scoutmasters, only remaining requirement necessary to launch another vigorous year of Scouting in this area.

All three Manistique troops have lost their Scoutmasters, the boys were told by the Rev. Paul Sobel, district commissioner, and Louis Rogers, neighborhood commissioner. Without new men to assume these duties the local Scouting program cannot continue, the commissioners pointed out.

### Sponsors Available

Sponsoring organizations for three troops are available, with organized, registered committeemen. They are the Manistique Rotary Club, the Lincoln-Riverside Parent-Teacher Association, and Manistique Lodge No. 632, B. P. O. E. Scout meeting places also are available, the boys were told.

Another meeting of Scouts and prospective Scouts will be held within the next two weeks at which, it is hoped, definite information will be available on the possibility of recruiting three adult leaders.

Parents of boys interested in Scouting, troop committeemen of the three sponsoring organizations, and all others interested in Boy Scouting are invited to the next meeting. Both fathers and mothers of boys are asked to be present. Date and place of the meeting will be announced later.

### Future Plans

Future programs for local Boy Scouts, including the possible organization of winter Scouting teams and a Scout drum and bugle corps, were outlined by Neighborhood Commissioner Rogers.

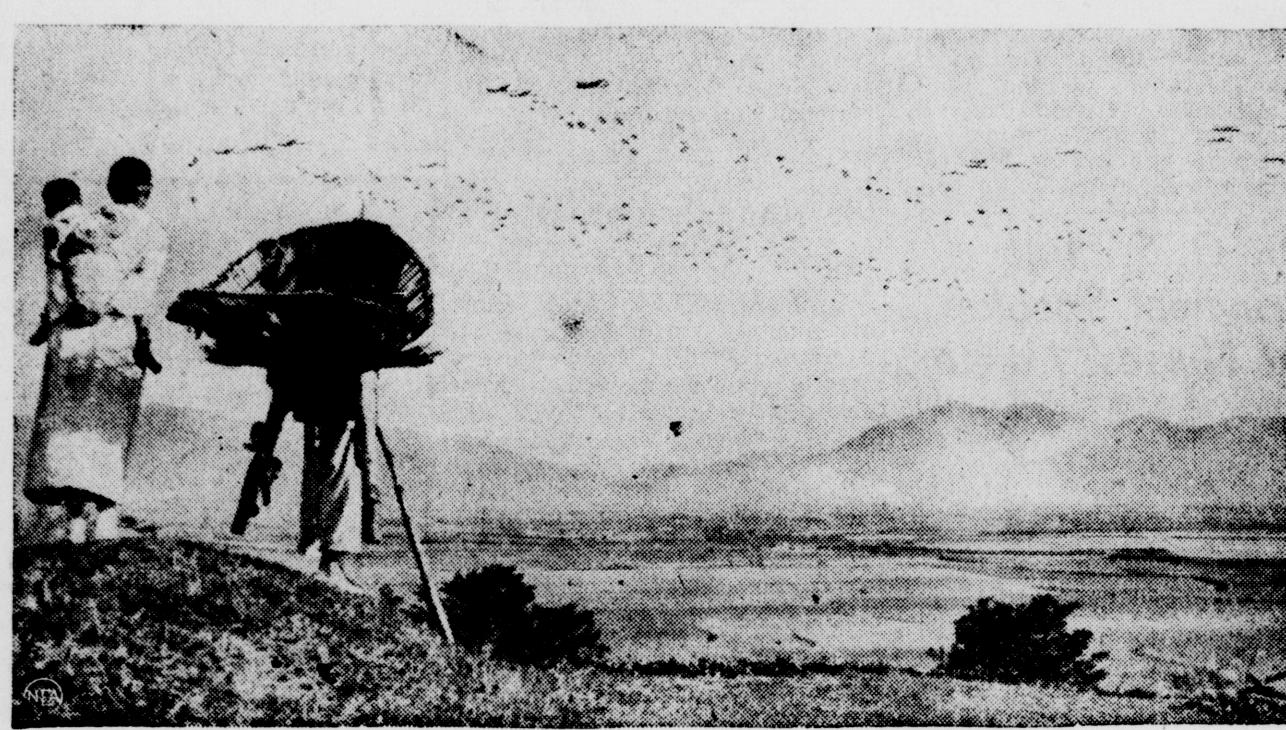

The meeting opened with a pledge of allegiance to the flag led by Warrant Officer William Cowman, of the Manistique National Guard Company. Games playing concluded the session.

A highlight of the meeting was the showing of a motion picture on winter camping.

## You Wouldn't Know A War Is Going On --

As bitter fighting rages in the bloody hills of Korea, the "Main Street" in Panmunjom, above, bears a sleepy, peaceful look. Only a few guards and liaison officers come and go at the site where the long-drawn-out truce talks, now indefinitely suspended, were held. Below, a Korean family calmly watches from a peaceful Korean hillside, as U. S. paratroopers float to earth from C-46 troop carriers, and land behind a protective smoke screen.

## Vote Tuesday Set No Record

### Briefly Told

**Bazaar**—Plans for a Christmas Bazaar were discussed at the regular meeting of the Presbyterian Women's Society Wednesday afternoon. The bazaar will be held December 6 in the church.

**Westminster Fellowship**—Members of the Westminster Fellowship of the Presbyterian Church are asked to meet in the church at 8:45 a. m. Saturday to go to Munising for the Fall Rally.

**Card Party**—The Blessed Martin's Circle will sponsor a party-to-blitz card party Monday evening at the home of Mrs. Louise Zucca, 171 River St. Guests are invited.

**Special Speaker**—The Rev. R. C. MacCormack, who has been pastor of the First Baptist Church in Bellwood, Ill., will be the speaker at the Sunday evening service at the local First Baptist Church, it is announced. The service is scheduled for 7:30. The Rev. MacCormack recently accepted a call to the First Baptist Church of Parkersburg, Iowa.

**Appreciation**—Appreciation for news average of church activities has been expressed by the Manistique Ministerial Association through its secretary-treasurer, the Rev. A. Barton Brown. "You may be sure that your consideration and generosity in this respect are well received by a grateful public", the Rev. Brown said in a letter to local newspaper.

**Change Is Made**—In First Baptist Morning Services

A time change in Sunday school and worship service at the First Baptist Church has been approved by the congregation, it is announced by the Rev. A. Barton Brown, pastor.

**Word**—Word has been received here of the birth of a son to Mr. and Mrs. Donald Hughson, of Rochester, Mich., Nov. 6. This is the second son in the family. Mrs. Hughson is the former Mary Beth Bolitho.

**Tea**—Tea was served later at Paul Bunyan's Cook Camp.

**Terry's Birthday**—Terry Ray, son of Mr. and Mrs. Raymond Lindner, 111 N. 4th St., celebrated his 10th birthday anniversary recently with a party at the home of his parents.

**During the afternoon games** were played with prizes going to Jacky Barr and Tommy McKenzie.

## Eva Tennyson Is Bride Saturday Of Daniel Johnson

At a ceremony performed Saturday, Nov. 1, Miss Eva Jeanette Tennyson, daughter of Mr. and Mrs. Roland Tennyson, 214 Schoolcraft Ave., became the bride of Daniel Peter Johnson, son of Mrs. Bertha Johnson, route one. The vows were spoken before the Rev. George Pernaski at St. Francis de Sales Church at 10:30 a. m.

During the service "Ave Maria" and "Oh! Beautiful Mother" were sung.

The bride, given in marriage by her uncle, Raymond Lancour, was attired in a white moire taffeta gown. Her fingertip veil fell from a crown adorned with pink and white flowers. Her only jewelry was a rhinestone necklace, a gift of the groom. She carried a white satin wedding ring with a corsage of white mums on the streamers.

Carol Johnson, the groom's sister, was maid of honor. She wore a green taffeta gown styled with cap sleeves, V-neckline and full skirt of green net over taffeta. Her head piece was of green net. She carried a bouquet of yellow and white mums with ivy. Miss Sara Jean Reno, bridesmaid, wore a brocaded chiffon gown trimmed in pink and matching head piece styled similar to that of the maid of honor. She carried a bouquet of pink and white mums with ivy.

Richard Kalters and Harvard Lancour, cousin of the bride, were best men and Howard Tennyson, the bride's brother, and William Bently, brother-in-law of the bride, seated the guests.

Mrs. Tennyson attended her daughter's wedding in a blue and white street length dress with matching accessories. Mrs. Johnson, the groom's mother, wore a black street length dress with black accessories. Both mothers wore corsages of pink and white mums and carnations.

A wedding breakfast was served following the ceremony for the bridal party at the home of the bride's parents. Later a reception and dance was held in the Manistique Township Hall for 85 guests. The newlyweds will make their home on Manistique Ave.

Both the bride and groom are graduates of Manistique high school. The groom is employed by Nelson Creamery.

Out-of-town guests attending were Mr. and Mrs. Joseph Peterson, of Fayette, and Mr. and Mrs. William Bently, of Green Bay.

The committee, in cooperation with all major Protestant denominations, has developed this church-centered program for Boy Scouts affiliated with Protestant churches. It makes available the God and Country award to Scouts who have fulfilled specific standards involving their participation in the total program of their respective churches, the Rev. A. Barton Brown, First Baptist pastor, said.

Andrew Houston, of Escanaba, Red Buck Scout executive, will be present at the presentation of the award.

### Steps To Organize Square Dance Club Taken On Wednesday

Initial steps to organize a local square dance club were taken Wednesday evening at the Lincoln gymnasium where a square dance sponsored by the City Recreation Commission was held.

E. R. Crook and Dr. E. D. Branyan were named temporary chairmen to make arrangements for the next session, scheduled for 8 p. m. Saturday, Nov. 22.

At that time permanent officers will be elected and rules and regulations of the club approved.

The opening dance Wednesday night represented an effort by the recreation board to promote interest in square dancing. Refreshments were served by a committee composed of E. H. LeBrasseur, chairman; Arthur Allen, Ivor Will-

**NOT BLIND TO BEAUTY** — "The Most Beautiful Blind Girl in America" will soon be selected from entrants in a contest recently sponsored by The Associated Blind, Inc., of New York. Irving M. Selis, above, president of the organization, extends best wishes to two aspirants for the title. At left is Paddy Markley, 18, of Brooklyn, N. Y. She is a lyric soprano, and has appeared on both radio and television. At right is Betty Schoonmaker, 20, of Newburgh, N. Y., who hopes to become a teacher for the blind. Purpose of the contest was to bring skills of the blind to the attention of employers.

## K-C Memorial Service Slated

Memorial services in honor of deceased members of Manistique Council 2026, Knights of Columbus, will be held on Sunday, Nov. 9, it is announced.

Council members will assemble at 7:45 a. m. in St. Francis de Sales school and will march to the church in a group for 8 a. m. mass, to be offered by the council chaplain, the Rev. F. M. Scheriner.

At the conclusion of mass a breakfast will be served in the school basement. Later, members will gather at the K-C hall, River St., for the memorial rites.

Respect of 42 members who have died since the local council was organized will be extended. Four members will pass away.

cock and T. H. Reque. Alex Creighton served as dance caller.

# 19 Grid Letters Awarded On St. Joe Trojan Squad

Nineteen varsity letters were awarded to St. Joe Trojans of the 1952 football team at the annual awards program this afternoon.

Coach Tom St. Germain presented letters to nine seniors, eight juniors, one sophomore and one freshman in addition to Jack Gregory, student manager.

Senior letter winners were John Martinac, Tom Brien, Bob Ber-

geon, Bob Sendenburgh, Jim Gravelle, Jim Cashin, Dan Marsicich, Tom Millington and Harlan Pepin.

## Soph. Fresh

Juniors winning letters were Don LaChapelle, Dick Cass, Jerry McDonough, Bill Maycunich, Dick Moreau, Gary Guertin, Bob Rademacher and Stan Venne.

Bill Lancer was the sophomore winner and LeRoy Villeneuve was the freshman letterman.

Cheerleaders awarded letters were Annette Paquette, Donna Walker and Mary Ann Bergman, seniors, and Marilyn Johnson, junior.

For the second straight season the Trojans were represented by a backfield man on the All-Upper Peninsula first team selected last weekend by the U. P. Sports Writers Association. John Martineac, Tom Brien, Bob Ber-

geon, Bob Sendenburgh, Jim Gravelle, Jim Cashin, Dan Marsicich, Tom Millington and Harlan Pepin.

## Fixers Banned From All Sports

NEW YORK (P)—Ralph Beard, Alex Groza and Dale Barnstable, three former University of Kentucky basketball players involved in the fix scandals, cannot participate in public sports during their three years on probation.

The three were given suspended sentences and placed on probation last April by Judge Saul S. Streit of General Sessions. The players earlier had pleaded guilty to conspiring with gamblers to fix the point spread in games.

Judge Streit yesterday explained to Beard and Groza that, under the terms of their probation, they could not "engage in public sports, amateur or professional." The two had asked permission to play with the Jersey City (N.J.) professional basketball team.

Barnstable, who was not present, must adhere to the same terms, Judge Streit said. Disobedience could bring jail terms.

## Smearcase Gives A. Hoople Notre Dame Over Oklahoma

### By MAJOR AMOS B. HOOPLE Inventor of Canasta Signals

Selecting that result, let me tell you was a real ordeal — Harumph!

Egad! The other evening in the library I met a scholar whose sound knowledge of mathematics impressed me deeply — so deeply, in fact, that this week I am going to use the system he confides to me!

The man is Prof. Angelo Smearcase, and he has devised an iron-clad method for prognosticating winners, particularly in the field of athletics. I cannot divulge all the steps in the process, but he calls it the Smearcase system of athletic redundancy governed by universal curvature.

Using this astute process I expect to better my average of winners which is now exactly .836. (Editor's note: We figured it up, too, and the answer we get is .824).

This week I have four upsets to give you, one that is indeed startling —Notre Dame to beat Oklahoma, 21-20. The figures on this contest were very close, and I carried my computations out to 10 decimal places with the following result: Notre Dame 20.749-999999, Oklahoma 20.333333334.

## Football No Longer All Brawn; Requires Clear, Quick Minds

NEW YORK — (NEA) — Next time you watch a college football game, don't discount the candle-power behind the horsepower that moves the ball.

Chances are that gee-whiz blocking back can tie you in knots — from Archimedes to Zanzibar.

In today's hypoed and complex game, football is no longer a broadway way for the scholastic jerk. The accent on split-second timing and thinking under conditions that put the premium on physical violence is not an adventure for a dunce.

You don't advance the ball by sheer weight of numbers in the platoon plan. Fresh combatants are constantly flooding the field. Mental and physical coordination is the answer.

Subsequently not a few super-duper performers are bidding as diligently for Phi Beta Kappa as All-American honors.

"Football today is a game of chess at high speed," says Biggie Munn. "Dollars only mess up the works."

Thirteen members of Coach Munn's Michigan State squad are B. students. Johnny Wilson, the defensive left halfback, is a Rhodes Scholarship candidate as a journalism undergrad.

Illinois' Rex Smith is representative of the team's Phi Beta Kappa timber. The mammoth end has a 3.87 average in Advertising, Vanderbilt's Bill Kriettmeyer is in the top half of his class in the School of Engineering. Halfback Herb Scott and Center Bob McCarley are straight B savants at Texas A. and M.

Notre Dame's academic wizards are further in the way of evidence that the tag "athletic bum" is applied all too haphazardly to many gridmen. Six regulars, including Halfback Johnny Lattner, are mousetrapping cum laude marks.

It will be brains against brains, as well as brawn versus brawn when the Irish entertain Oklahoma in South Bend, Nov. 8, a dilly which will be televised by the National Broadcasting Company and General Motors coast to coast.

Bud Wilkinson has his share of blue ribbon students. Classes consist of more than chalk talks re grid strategy with a minor in Room Ventilation. The Sooners tackle the books, too.

During the last four years, 92 per cent of the Oklahoma footballers have earned diplomas. Forty per cent graduated in Business School; 12 per cent in Physical Education; 9.6 per cent in Petroleum Engineering; 7.2 per cent in Education; and 4.8 per cent in History, Arts and Sciences, Psychology and Mechanical Engineering.

It's good to see the emphasis on the books instead of the bucks.

TEE VEE PROGRAM

BLOOMINGTON, Ind. (P)—All but one of Indiana University's home basketball games this season will be televised.

Princeton's 1952 edition runs from Religion to Law in the class room—not a Physical Ed major in the carload.

If academic genius meant defensive and offensive heaven, Yale would be unbeatable. At that, Jordan Olivar isn't doing too badly. Eleven Elis are honor students.

It's good to see the emphasis on the books instead of the bucks.

High Batters—Bob Pearson, 400; Carol Hardwick, 375; Shirley La Crosse, 370; Jane Miesels, 358; Shorty Johnson, 342; Ann Kohlic, 333; Toots Cusineau, 324; Louise Blanche, 320; Ethel Provo, 308.

Linebacker Roger Zatkoff of Michigan continued to receive solid support from the board, as did Johnny Lattner, Notre Dame's workhorse back.

A new candidate, Northwestern's 230-pound offensive tackle, Ray Huizinga, was submitted by the board and nominated by Culom along with Zatkoff, Kush and Lattner as a prime choice.

High Batters—Bob Pearson, 500; R. Burtt, 490; A. Doucette, 485; K. Bryton, 450; R. Carlson, 440; M. Bertrand, 430; S. Rabideau, 425.

Linebacker Roger Zatkoff of Michigan continued to receive solid support from the board, as did Johnny Lattner, Notre Dame's workhorse back.

A new candidate, Northwestern's 230-pound offensive tackle, Ray Huizinga, was submitted by the board and nominated by Culom along with Zatkoff, Kush and Lattner as a prime choice.

# Bowl Bids And Conference Crowns Choice Grid Prizes

By ED CORRIGAN

NEW YORK (AP) — The college football season begins its mad rush down the home stretch tomorrow with gold in the form of bowl games and glory in the form of conference championships for the first to hit the wire.

With the exception of the University of Maryland—rated second in the Associated Press' weekly poll—all the big boys get into action. Except for Oklahoma, the undefeated teams all seem to have easy sailing.

The Sooners, well on their way to another Big Seven crown, a title on which they have squatter's rights, face Notre Dame in the NCAA's television game of the

week. Some of these TV games have been busts since the schedule was made up before the season started with the intention of bringing in a top game of the day.

Could Be Upset

The Irish have been in-and-outers most of the season, but although underdogs they could at least make it close for Billy Vessels, and company. If they rise to the occasion, it could be an upset. The Sooners rank fourth in the nation and are undefeated although they've been tied once.

Michigan State, the No. 1 outfit, has a breather (are there anything except breathers for the Spartans these days?) in Indiana and the only question seems to be how long Biggie Mum's lads will wait before turning on the power.

Georgia Tech, UCLA and Southern California should have no undue trouble in their day's assignments. Tech, already selected for

the Sugar Bowl in New Orleans on New Year's Day, goes against Army, which, although no pushover in any man's league, certainly is not in the Ramblin' Wrecks' class.

Big Test In West

UCLA and Southern California, in a neck and neck battle for the Pacific Coast Conference title and the Rose Bowl nomination, tangle with Oregon State and Stanford, respectively. For both schools it should be just another warmup as they rush toward their showdown game on Nov. 22.

Kansas, which still has hopes, though they are of winning the Big Seven crown from Oklahoma, should have no trouble in its conference game with Nebraska, a team that's only as good as Bobby Reynolds—and he's out with an injury.

In the Big 10 and Southwest Conference, Purdue and Texas are leading the pack in the race for

## Irish Eye Grid Upset

SOUTH BEND, Ind. (AP) — Notre Dame's fighting Irish, running a high upset fever, and the unbeaten Oklahoma Sooners will meet for the first time on the gridiron tomorrow in a nationally televised national.

Oklahoma and its split-T magic figure to be at least a two-touchdown favorite in the country's No. 1 contest of the day.

A high-scoring game is in prospect as the Irish match their split-T attack against that of the Sooners, who lead the nation in ball-carrying yards with an average of 295.2 per game and are No. 1 in scoring with 251 points in six games.

Notre Dame has a season record of four victories, one loss and a tie with Penn. Oklahoma has five triumphs and a deadlock with Colorado.

Each has played Pittsburgh. Pitt stunned the Irish 22-19 while Oklahoma trounced the Panthers 49-20. Texas was their only other common foe, Notre Dame winning 14-3 and the Sooners smashing to a 49-20 decision the following week.

Comparisons, however, should not be taken too seriously for tomorrow's showdown. Notre Dame has worked itself into a typical do-or-die fervor and is hard to beat, if at all, in such a mood.

In the first four games of this season, Florida's grid opponents made the same number of first downs running as passing—22.

## Injuries Cut Spartan Regulars From Squad

By ROBERT E. VOGES

MARTINSVILLE, Ind. (AP) — For the first time this season, Michigan State was really hurting because of injuries as the Spartans prepared to meet Indiana.

Suitably, the Michigan State squad set up headquarters here today at Martinsville, noted as a mineral springs health resort.

Although the squad was badly ridged, top-rated Michigan State was still a three and four touch-

down favorite to score its 22nd consecutive football victory.

Leave Three Home

Right half Vince Pisano, utility back Gene Leketa of Grand Rapids and end Ellis Duckett of Flint all were dropped from the 40-man travelling squad because of injuries.

"We'll miss all three of them," Mum said, "but they just weren't in condition to play. We had to take along those who were physically fit."

Johnny Matsook, sophomore from Detroit, was named as an alternate at right half. Ray Vogt, a defensive halfback, also may work at the position.

Dale Knight, St. Johns junior, who has caught two passes for 37 yards, was added to the list of ends to replace Duckett.

Wells Is Okay

Working as a first team with Tom Yewcic at quarterback will be "old reliable" Don McAuliffe at left half, Billy Wells at right half and Evan Slonack at fullback. Wells is over his leg injury, one of the many suffered in the Purdue game.

Last year the Hoosiers joined the ranks of the teams that have come close to dumping the Spartans, only to fall before their last half power.

Michigan State, now the nation's No. 1 team in the weekly Associated Press poll, had to come from behind to defeat underdog Indiana, 30-26, in the next-to-last game of the regular 1951 season.

It will be an ailing team Indiana

Coach Bernie Crimmins will send against Coach Biggie Mum's powerhouse, with little reserve depth to bolster his starting offensive and defensive lineups.

The biggest loss likely will be quarterback Lou D'Achille, the driving piston in the Hoosiers' backfield. He is nursing a sprained instep suffered in last Saturday's loss at Pittsburgh.

Also in doubt is end John Zuger, one of Indiana's top pass grabbers. Zuger has spent most of the week in the campus infirmary with flu. He worked out briefly with the squad yesterday.

### Compo Favored To Stop Winning Skein Of Coney Island Boy

NEW YORK (AP)—Eddie Compo is an 8 to 5 favorite to beat Pat Marcune tonight and end the Coney Island featherweight's winning streak.

The featherweights clash in a ten rounder which will be telecast nationally from St. Nicholas Arena.

Marcune, a stiff punching 128-pounder, has won four in a row, two by decisions and two by knockouts.

But Compo appears to be too smart and too experienced for his 23-year old Brooklyn rival. The swatty New Haven 25-year old has compiled a fine 68-4-4 record.

## Present Day Grid Passes Lowly Rated

BOSTON (AP) — Benny Friedman, who used to throw football strikes for the University of Michigan, finds it hard to get excited about the passing exploits of today's Jack Scarbath and Don Heinrichs.

Letting off some steam, the coach of little Brandeis said:

"So many forward passes today are just a matter of playing catch, and it is ridiculous to call them pass completions."

"You toss the ball five or six feet forward to receiver who is stationary and, statistically, it is called a completion."

In Friedman's book, these are merely "minnows" that ought to be tossed back in the creek and not counted in the statistics.

"A good forward pass, as I see it," he said, "is one which the passer perfectly times and leads a mobile receiver."

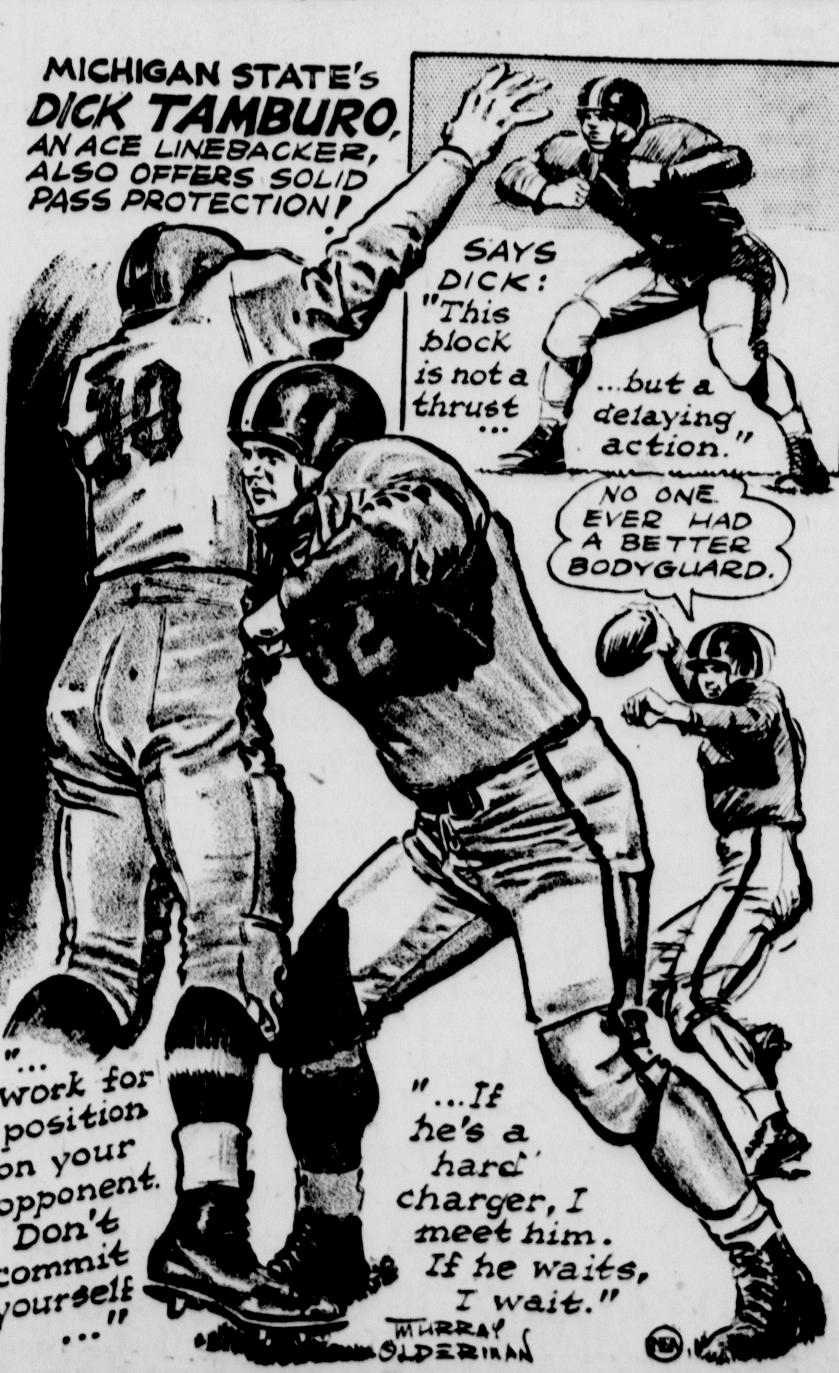

In Friedman's day he had to throw a balloon ball and remain five yards back of the line of scrimmage. Yet they say he could part an end's hair at 50 yards.

### Al Gronik Of Detroit Gets Impressive Win

SAGINAW (AP)—Al Gronik, 145, Detroit, decisioned Joe Greenwood, 148, Akron, O., in the eighth-round headliner of a six-round fight card here last night. There were 1,344 fans on hand.

Greenwood recently whipped Pat Lowery, handing the ex-Marine his first pro defeat, and was originally scheduled to meet the slugging Toledoan in a return match here. Gronik was a substitute.

Ken Hohner, 143, London, Ont., decisioned Danny Boy Wood, 139, Saginaw in six rounds.

## Administrative Board Refuses To Intervene In Lake Linden Case

LANSING (AP)—The State Administrative Board has declined to intervene in the state superintendent of public instruction's reduction of state school aid to the Lake Linden district for operating sectarian schools.

The Lake Linden district had appealed to the board to overrule Dr. Lee M. Thurston, the state superintendent, and reimburse it

## Subs Become More Versatile

WASHINGTON—America's newest submarines come close to matching the abilities of their namesakes, the fish of the deep seas.

They "breathe" underwater. They travel faster submerged than on the surface. They carry uncanny new weapons as "teeth," and sensitive electronic "ears."

Such advances in the world of undersea warfare, writes Allan C. Fisher Jr., in the National Geographic Magazine, have already made the U. S. fleet submarines of World War II as obsolete as the Model T Ford.

### Atomic Submarine

An even greater undersea revolution is promised, Fisher reports, by the world's first atomic-powered submarine, U. S. S. Nautilus, now on the ways near New London, Connecticut.

With uranium as fuel, atom subs should be able to cruise indefinitely at great depth. No air would be needed for the atomic engines.

It has been estimated unofficially that the first nuclear-powered submarines probably would be able to make 35 knots submerged—considerably faster than the top speeds of most modern surface warships.

Thus the prediction of Comdr. Edward L. Beach, skipper of one of the Navy's newest attack submarines, U. S. S. Trigger:

"A number of submarines—and that includes me," he said, "foresee the day when all warships must be able to submerge, or court disaster."

Comdr. Beach's Trigger, the National Geographic Magazine reports, is already capable of going faster submerged than on the surface. Shorter and shabbier than the fleet type, such subs have snorkel equipment for operating their Diesel engines at periscope depth, secret electronic equipment and high-powered batteries for deep-water maneuvering. "Guppies" and Homing Torpedoes.

In addition to the new attack boats and the atomic submarine of the near future, Fisher reports, America's undersea fleet today includes streamlined "guppy" submarines, submersible oilers, troop carriers, radar picket boats and guided missile launchers.

Among their weapons is a homing torpedo which runs unerringly to its target, guided only by the sound of an enemy ship. A second type, the pattern-running torpedo, heads for the target's general area and then begins to weave through the water, seeking its victim.

Great emphasis is being placed by the U. S. Navy, the article reports, upon countermeasures against the submarine—new listening and tracking gear, new "submarine killer" subs, and surface attack weapons such as the mortar-like "hedgehog."

But despite this priority Fisher writes, many officers think the submarine someday will inherit the seas. As yet there is no certain defense, no one sure countermeasure against it.

\$51,000 for the last school year. The board acted on the opinion of Attorney General Frank G. Millard which said:

"Since it was apparently admitted the three schools were sectarian, then the duty to omit the membership of the schools in the distribution of state aid was not a matter of discretion or judgment but ministerial and mandatory subject only to judicial review."

Millard rejected the school district's plea that the \$51,000 was reimbursement for last year's school costs and was due because the school district was not declared to be operating sectarian schools until this summer.

Millard said if the state reimbursed schools for operating improperly the state becomes a party to the improper expenditure of public funds.

Actually, he said, state school aid is not reimbursement for past costs but payment for current year costs using the previous year's enrollment as a yardstick.

The Lake Linden district was found to have been operating three elementary schools in Catholic Church buildings, using as teachers nuns nominated by the church and permitting religious materials to be used in the schools.

### Thwarted Man Kidnaps Ex-Mother-In-Law

LAHORE, Pakistan (AP)—Amazed police of Lyallpur district have reported the case of a man who abducted his own ex-mother-in-law.

According to testimony, the man decided to use force in obtaining the return of his divorced wife. He gathered several well-armed friends, rode with them to his former wife's home, and demanded her return. But her mother-in-law, the report stated, and forced her onto the back of his horse, and galloped away. Police are still searching for her.

### Sea-Going Students Hold Lifeboat Race

NEW YORK (AP)—Students from the ship John W. Brown, believed to be the only floating maritime high school in the United States, held a lifeboat race in the East River recently with two nine-man crews of seniors.

The crews raced from 34th

Street to 24th Street with a Coast Guard patrol boat keeping pace. The engineers defeated the deck force for the first time in the five years the race has been held.

Since 1937 the schoolship, an annex of the Board of Education's Metropolitan Vocational High School, has graduated about 800 seamen. The average age of students is from 17 to 18.

## Tickets For Play Wednesday Night On Sale At EHS

Tickets for the EHS Dramatics and Thespian club's presentation of the three-act play "The Night of January 16th" here Wednesday evening are on sale at the school activities office, the club announced today.

"Night of January 16th" had a long run in New York and has toured the United States. The late Percy Hammond, dramatic critic for the New York Herald Tribune, has written thusly of the play:

"I have the word of no less an expert artist and showman than George M. Cohan that 'Night of January 16th' alternately chilled and fired his blood with the drama's aches and fevers, more than any other masterpiece that has come within his experience."

Curtain for the student play is at 8:15 p. m., on Wednesday, Nov. 12.

**FEEL CHANGING WEATHER**

A change of one inch in the barometer causes a change of about 100 pounds in the atmospheric pressure on the human brain. It is because of this that we often feel a weather change coming.
